TABLE OF CONTENTS

I. HIGHLIGHTS/SUMMARY OF THE SCHEME

Name of the Scheme	Kotak Balanced Advantage Fund
Type of scheme	Open ended Dynamic Asset Allocation Fund
Scheme Code	KOTM/O/H/BAF/18/05/0036
Investment Objective	The investment objective of the scheme is to generate capital appreciation by investing in a dynamically balanced portfolio of equity & equity related securities and debt & money market securities. **There is no assurance or guarantee that the investment objective of the scheme will be achieved**.
Liquidity	The Scheme offers Units for Subscription and Redemption at NAV based prices on each Business Days on an ongoing basis. As per SEBI (MF) Regulations, read with paragraph 14.1 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 the redemption or repurchase proceeds shall be dispatched within 3 working days from the date of receipt of redemption requests or repurchase requests. A penal interest of 15% per annum or such other rate as may be prescribed by SEBI from time to time, shall be paid in case the redemption or repurchase proceeds are not transferred within the prescribed timelines. In case of exceptional situations listed in AMFI Circular No. AMFI/35P/MEM-COR/74/2022-23 dated January 16, 2023, the scheme shall be allowed additional timelines for transfer of redemption or repurchase proceeds to the unitholders.
Benchmark	The performance of Kotak Balanced Advantage Fund will be measured against Nifty 50 Hybrid composite debt 50:50 Index TRI which is based on 50% Nifty 50 TRI and 50% of Nifty composite debt index. Since the equity exposure would be dynamically managed, a customized index representing 50% equity exposure would be most appropriate to benchmark the performance of the scheme.
Transparency / NAV disclosure	The NAVs of the Scheme will be calculated and disclosed on every Business Day on the website of the Kotak Mahindra Mutual Fund viz www.kotakmf.com and AMFI's website www.amfiindia.com by 11.00 p.m Unitholders may avail the facility to receive the latest available NAVs through SMS by submitting a specific request in this regard to the AMC/Mutual Fund. Also, information regarding NAVs can be obtained by the Unit holders / Investors by visiting the nearest ISC. Delay in uploading of NAV beyond 11.00 p.m. on every Business Day shall be explained in writing to AMFI. In case the NAVs are not available before the commencement of business hours on the following Business Day due to any reason, a press release for revised NAV shall be issued. In terms of SEBI regulations, a complete statement of the Scheme portfolio will be sent to all unitholders, within ten days from the close of each month / half-year whose email addresses are registered with the Mutual Fund. The portfolio of the scheme (alongwith ISIN) shall also be disclosed on the website of Mutual Fund (www.kotakmf.com) and on the website of AMFI (www.amfiindia.com) on a monthly and half-yearly basis within 10 days from the close of each month/ half-year respectively in a user-friendly and downloadable spreadsheet format.

The Applicant intending to hold the units in Demat form are required to have a beneficiary account with a Depository Participant (DP) registered with NSDL / CDSL and will be required to indicate in the application the DP's name, DP ID Number and the Beneficiary Account Number of the applicant held with the DP at the time of purchasing Units. Unitholders are requested to note that request for conversion of units held in Account Statement (non-demat) form into Demat (electronic) form or vice versa should be submitted to their Depository Participants. The demat request to depository must be submitted for all units in a folio. In case Unit holders do not provide their Demat account details or the Demat details provided in the application form are incomplete / incorrect or do not match with the details with the Depository records, the Units will be allotted in account statement mode provided the application is otherwise complete in all respect and accordingly an account statement shall be sent to them

II. INTRODUCTION

A. Risk Factors

Standard Risk Factors:

- Investment in Mutual Fund Units involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the scheme invests fluctuates, the value of your investment in the scheme may go up or down. The value of investments may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the scheme.
- Kotak Balanced Advantage Fund is only the name of the scheme, and does not in any manner indicate either the quality of the scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the scheme beyond the initial contribution of Rs.2,50,000 made by it towards setting up the Fund.
- The present scheme is not a guaranteed or assured return scheme.

SPECIFIC RISKS IN DEBT MARKETS AND CAPITAL MARKETS

Investments in Financial Instruments are faced with the following kinds of risks.

I. Risks associated with Capital Markets or Equity Markets, (i.e. Markets in which Equity Shares or Equity oriented instruments are issued and traded)

- **Price fluctuations and Volatility:**

Mutual Funds, like securities investments, are subject to market and other risks and there can be neither a guarantee against loss resulting from an investment in the Scheme nor any assurance that the objective of the Scheme will be achieved. The NAV of the Units issued under the Scheme can go up or down because of various factors that affect the capital market in general, such as, but not limited to, changes in interest rates, government policy and volatility in the capital markets. Pressure on the exchange rate of the Rupee may also affect security prices.

- **Concentration / Sector Risk:**

When a Mutual Fund Scheme, by mandate, restricts its investments only to a particular sector; there arises a risk called concentration risk. If the sector, for any reason, fails to perform, the portfolio value will plummet and the Investment Manager will not be able to diversify the investment in any other sector. Investments under this scheme will be in a portfolio of diversified equity or equity related stocks spanning across a few selected sectors. Hence the concentration risks could be high.

- **Liquidity Risks:**

Liquidity in Equity investments may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by KMMF for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information.

II. Risks associated with Debt / Money Markets (i.e. Markets in which Interest bearing Securities or Discounted Instruments are traded)

a) Credit Risk:

Securities carry a Credit risk of repayment of principal or interest by the borrower. This risk depends on micro-economic factors such as financial soundness and ability of the borrower as also macro-economic factors such as Industry performance, Competition from Imports, Competitiveness of Exports, Input costs, Trade barriers, Favourability of Foreign Currency conversion rates, etc.

Credit risks of most issuers of Debt securities are rated by Independent and professionally run rating agencies. Ratings of Credit issued by these agencies typically range from "AAA" (read as "Triple A" denoting "Highest Safety") to "D" (denoting "Default"), with about 6 distinct ratings between the two extremes.

The highest credit rating (i.e. lowest credit risk) commands a low yield for the borrower. Conversely, the lowest credit rated borrower can raise funds at a relatively higher cost. On account of a higher credit risk for lower rated borrowers lenders prefer higher rated instruments further justifying the lower yields.

b) Price-Risk or Interest-Rate Risk:

From the perspective of coupon rates, Debt securities can be classified in two categories, i.e., Fixed Income bearing Securities and Floating Rate Securities. In Fixed Income Bearing Securities, the Coupon rate is determined at the time of investment and paid/received at the predetermined frequency. In the Floating Rate Securities, on the other hand, the coupon rate changes - 'floats' - with the underlying benchmark rate, e.g., MIBOR, 1 yr. Treasury Bill.

Fixed Income Securities (such as Government Securities, bonds, debentures and money market instruments) where a fixed return is offered, run price-risk. Generally, when interest rates rise, prices of fixed income securities fall and when interest rates drop, the prices increase. The extent of fall or rise in the prices is a function of the existing coupon, the payment-frequency of such coupon, days to maturity and the increase or decrease in the level of interest rates. The prices of Government Securities (existing and new) will be influenced only by movement in interest rates in the financial system. Whereas, in the case of corporate or institutional fixed income securities, such as bonds or debentures, prices are influenced not only by the change in interest rates but also by credit rating of the security and liquidity thereof. However, debt securities in the scheme are intended to be held till maturity. For such securities held till maturity, there will not be any interest rate risk at the end of the tenure.

Floating rate securities issued by a government (coupon linked to treasury bill benchmark or a real return inflation linked bond) have the least sensitivity to interest rate movements, as compared to other securities. The Government of India has already issued a few such securities and the Investment Manager believes that such securities may become available in future as well. These securities can play an important role in minimizing interest rate risk on a portfolio.

c) Risk of Rating Migration:

The following table illustrates the impact of change of rating (credit worthiness) on the price of a hypothetical AA rated security with a maturity period of 3 years, a coupon of 10.00% p.a. and a market value of Rs. 100. If it is downgraded to A category, which commands a market yield of, say, 11.00% p.a., its market value would drop to Rs. 97.53 (i.e. 2.47%) If the security is up-graded to AAA category which commands a market yield of, say, 9.00% p.a. its market value would increase to Rs102.51 (i.e. by 2.51%). The figures shown in the table are only indicative and are intended to demonstrate how the price of a security can be affected by change in credit rating.

Rating	Yield (% p.a.)	Market Value (Rs.)
AA	10.00	100.00
If upgraded to AAA	9.00	102.51
If downgraded to A	11.00	97.53

d) Basis Risk:

During the life of floating rate security or a swap the underlying benchmark index may become less active and may not capture the actual movement in the interest rates or at times the benchmark may cease to exist. These types of events may result in loss of value in the portfolio. Where swaps are used to hedge an underlying fixed income security, basis risk could arise when the fixed income yield curve moves differently from that of the swap benchmark curve.

e) Spread Risk:

In a floating rate security, the coupon is expressed in terms of a spread or mark up over the benchmark rate. However, depending upon the market conditions the spreads may move adversely or favourably leading to fluctuation in NAV.

f) Reinvestment Risk:

Investments in fixed income securities may carry reinvestment risk as interest rates prevailing on the interest or maturity due dates may differ from the original coupon of the bond. Consequently, the proceeds may get invested at a lower rate.

g) Liquidity Risk:

The corporate debt market is relatively illiquid vis-a- vis the government securities market. There could therefore be difficulties in exiting from corporate bonds in times of uncertainties. Liquidity in a scheme therefore may suffer. Even though the Government Securities market is more liquid compared to that of other debt instruments, on occasions, there could be difficulties in transacting in the market due to extreme volatility or unusual constriction in market volumes or on occasions when an unusually large transaction has to be put through. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information (SAI).

III. Risk Associated with Investment in Derivatives Market

Derivative products are leveraged instruments and can provide disproportionate gains as well as disproportionate losses to the investor. Execution of such strategies depends upon the ability of the fund manager to identify such opportunities. Identification and execution of the strategies to be pursued by the fund manager involve uncertainty and decision of fund manager may not always be profitable. No assurance can be given that the fund manager will be able to identify or execute such strategies. The risks associated with the use of derivatives are different from or possibly greater than, the risks associated with investing directly in securities and other traditional investment.

The risks associated with the use of derivatives are different from or possibly greater than the risks associated with investing directly in securities and other traditional investments. There are certain risks inherent in derivatives. These are:

a) Basis Risk – This risk arises when the derivative instrument used to hedge the underlying asset does not match the movement of the underlying being hedged for e.g. mismatch between the maturity date of the futures and the actual selling date of the asset.

b) Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.

c) Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivates may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

d) In case of investments in index futures, the risk would be the same as in the case of investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. In case futures are used for hedging a portfolio of stocks, which is different from the index stocks, the extent of loss could be more or less depending on the coefficient of variation of such portfolio with respect to the index; such coefficient is known as Beta.

e) The risk (loss) for an options buyer is limited to the premium paid.

f) The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.

g) Credit Risk – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a derivative transaction

h) Interest Rate Risk – interest rate is one of the variables while valuing derivatives such as futures & options. For example, with everything remaining constant, when interest rates increase, the price of Call option would increase. Thus, fluctuations in interest rates would result in volatility in the valuation of derivatives.

i) Model Risk - A variety of models can be used to value options. Hence, the risk to the fund is that the fund manager buys a particular option using a particular valuation model (on the basis of which the option seems to be fairly priced or cheap) but the market is valuing it using another valuation model and according to which the option may be expensive.

j) Potential Loss associated with Derivative Trading pertaining to Debt Markets:

The use of an Interest Rate Swap ('IRS') does not eliminate the credit (default) risk on the original investment. While the fixed to floating rate IRS reduces interest rate risk caused by rise in interest rates, it also restricts the profit in case interest rates decline. In case of a floating to fixed rate swap, any subsequent rise in interest rates will result in a loss like in any fixed rate investment. Any IRS carries, the risk of default of the counter party to the swap, which may lead to a loss. Such loss is usually, a small proportion of the notional principal amount of the swap.

IV. Risk factors associated with Imperfect Hedging using IRFs:

Holders of Debt securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts. However, there is a possibility that the hedge may be an imperfect

- Potential loss associated with imperfect hedge using IRFs – While using such strategy may reduce interest rate risk caused by rise in interest rates, it also restricts the profit in case interest rates decline.
- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.
- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.
- Movement in the prices of securities in the portfolio and the IRF contract used to hedge part of the portfolio may lead to basis risk due to imperfect correlation. Thus, the loss on the portfolio may be different from the gain of the hedged position entered using the IRF.

Example:
Date: 17/09/2023
Spot price of G sec 7.26 G sec 2033: Rs. 100.19
Futures price of IRF Contract G sec 7.26 G sec 2033: Rs.100.29
On 17/09/2023 XYZ bought 2000 GOI securities from spot market at Rs100.19. He anticipates that the interest rate will rise in near future. Therefore, to hedge the exposure in underlying market he may sell IRF for7.26 G sec 2033 maturing on 27 Sep 2023 traded Interest Rate Futures contracts at Rs.100.29
On 27/09/2022 the maturity price of the contract and underlying will be same thereby realising the 10p arbitrage gain
Spot price of GOI Security: Rs. 100.19
Futures Price of IRF Contract: Rs. 100.29
Profit /Loss in underlying market will be (100.19-100.19)*2000 = Rs.00
Loss in the Futures market will be (100.29-100.19)*2000 = Rs. 20000
Therefore the fund will earn a total holding period return of 7.23% + (0.10/10*365)= 7.23+3.65=10.88
Not necessary the future is trading above cash for arbitrage to happen.

V. Risks associated with Securitised Debt:

The Scheme may from time to time invest in domestic securitised debt, for instance, in asset backed securities (ABS) or mortgage backed securities (MBS). Typically, investments in securitised debt carry credit risk (where credit losses in the underlying pool exceed credit enhancement provided, (if any) and the reinvestment risk (which is higher as compared to the normal corporate or sovereign debt). The underlying assets in securitised debt are receivables arising from automobile loans, personal loans, loans against consumer durables, loans backed by mortgage of residential / commercial properties, underlying single loans etc.

ABS/MBS instruments reflect the proportionate undivided beneficial interest in the pool of loans and do not represent the obligation of the issuer of ABS/MBS or the originator of the underlying receivables. Investments in securitised debt is largely guided by following factors:

- Attractive yields i.e. where securitised papers offer better yields as compared to the other debt papers and also considering the risk profile of the securitised papers.
- Diversification of the portfolio
- Better performance

Broadly following types of loans are securitised:

a) Auto Loans

The underlying assets (cars etc.) are susceptible to depreciation in value whereas the loans are given at high loan to value ratios. Thus, after a few months, the value of asset becomes lower than the loan outstanding. The borrowers, therefore, may sometimes tend to default on loans and allow the vehicle to be repossessed.

These loans are also subject to model risk i.e. if a particular automobile model does not become popular, loans given for financing that model have a much higher likelihood of turning bad. In such cases, loss on sale of repossession vehicles is higher than usual.

Commercial vehicle loans are susceptible to the cyclicality in the economy. In a downturn in economy, freight rates drop leading to higher defaults in commercial vehicle loans. Further, the second hand prices of these vehicles also decline in such economic environment.

b) Housing Loans

Housing loans in India have shown very low default rates historically. However, in recent years, loans have been given at high loan to value ratios and to a much younger borrower classes. The loans have not yet gone through the full economic cycle and have not yet seen a period of declining property prices. Thus the performance of these housing loans is yet to be tested and it need not conform to the historical experience of low default rates.

c) Consumer Durable Loans

The underlying security for such loans is easily transferable without the bank's knowledge and hence repossession is difficult.

The underlying security for such loans is also susceptible to quick depreciation in value. This gives the borrowers a high incentive to default.

d) Personal Loans

These are unsecured loans. In case of a default, the bank has no security to fall back on. The lender has no control over how the borrower has used the borrowed money.

Further, all the above categories of loans have the following common risks:

All the above loans are retail, relatively small value loans. There is a possibility that the borrower takes different loans using the same income proof and thus the income is not sufficient to meet the debt service obligations of all these loans.

In India, there is no ready database available regarding past credit record of borrowers. Thus, loans may be given to borrowers with poor credit record. In retail loans, the risks due to frauds are high.

e) Single Loan PTC

A single loan PTC is a securitization transaction in which a loan given by an originator (Bank/ NBFC/ FI etc.) to a single entity (obligor) is converted into pass through certificates and sold to investors. The transaction involves the assignment of the loan and the underlying receivables by the originator to a trust, which funds the purchase by issuing PTCs to investors at the discounted value of the receivables. The PTCs are rated by a rating agency, which is based on the financial strength of the obligor alone, as the PTCs have no recourse to the originator.

The advantage of a single loan PTC is that the rating represents the credit risk of a single entity (the obligor) and is hence easy to understand and track over the tenure of the PTC. The primary risk is that of all securitized instruments, which are not traded as often in the secondary market and hence carry an illiquidity risk. The structure involves an assignment of the loan by the originator to the trustee who then has no interest in monitoring the credit quality of the originator. The originator that is most often a bank is in the best position to monitor the credit quality of the originator. The investor then has to rely on an external rating agency to monitor the PTC. Since the AMC relies on the documentation provided by the originator, there is a risk to the extent of the underlying documentation between the seller and underlying borrower.

VI. Risk associated with Securities Lending:

In the case of securities lending the additional risk is that there can be temporary illiquidity of the securities that are lent out and the Fund may not be able to sell such lent-out securities, resulting in an opportunity loss. In case of a default by counterparty, the loss to the Fund can be equivalent to the securities lent.

VII. Risk Associated with investments in ADRs/GDRs/offshore investments

In respect of investments in ADRs/GDRs, the risks associated with underlying stocks remain the same except for the additional risk of the exchange rate of the Indian rupee vis-à- vis the currency in which ADRs/GDRs are denominated. In case of other offshore investments the risk shall be exchange rate of the Indian rupee vis-à-vis the currency in which such securities are issued and the country risk associated with an investment. Country risk would include events such as introduction of extraordinary exchange control, economic deterioration and bilateral conflict leading to immobilization of the assets.

VIII. Risk envisaged and mitigation measures for repo transactions:

Credit risks could arise if the counterparty does not return the security as contracted or interest received by the counter party on due date. This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also operational risks are lower as such trades are settled on a DVP basis.

In the event of the scheme being unable to pay back the money to the counterparty as contracted, the counter party may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to us. Thus the scheme may in remote cases suffer losses. This risk is normally mitigated by better cash flow planning to take care of such repayments.

IX. Risk factors associated with REITS/InvITs:

- **Market Risk –** Units of REITS &InvITs are subject to market and other risks. The value of these units can go up or down because of various factors that affect the capital market in general, such as, but not limited to, changes in interest rates, government policy and volatility in the capital markets
- **Liquidity Risk -** Liquidity in units of REITs &InvITs may be affected by trading volumes, settlement periods and transfer procedures. These factors may also affect the Scheme's ability to make intended purchases/sales, cause potential losses to the Scheme and result in the Scheme missing certain investment opportunities. These factors can also affect the time taken by KMMF for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described in the Statement of Additional Information. REITs and InvITs currently only have a nascent primary market. As such, in absence of the secondary market, the invested units cannot be redeemed except where the issuer is offering a buyback or delisting the units.
- **Re-investment Risk** – Investments in REITs &InvITs may carry reinvestment risk as there could be repatriation of funds by the Trusts in form of buyback of units or IDCW pay-outs, etc. Consequently the proceeds may get invested at a lower rate
- **Performance Risk -** InvITs and REITS carry a performance risk by way of repayment of principal or of interest by the borrower. REITs &InvITs are likely to have volatile cash flows as the repayment dates would not necessarily be pre scheduled.

The above are some of the common risks associated with investments in REITs &InvITs. There can be no assurance that a Scheme's investment objectives will be achieved, or that there will be no loss of capital.

X. **Risk associated with investment in Government securities and Triparty repo on Government securities or treasury bills:**

- The mutual fund is a member of securities segment and Triparty repo on Government securities or treasury bills trade settlement of the Clearing Corporation of India (CCIL). All transactions of the mutual fund in government securities and in Triparty repo on Government securities or treasury bills trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus reducing the settlement and counter party risks considerably for transactions in the said segments.
- The members are required to contribute towards margin obligation (Initial / Mark to Market etc.) as per bye-laws of CCIL as also an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in discharging their obligation. As per the waterfall mechanism, after the defaulter's margins and the defaulter's contribution to the default fund have been appropriated, CCIL's contribution is used to meet the losses. Post utilization of CCIL's

contribution if there is a residual loss, it is appropriated from the default fund contributions of the non-defaulting members as determined by CCIL.

- Thus the scheme is subject to risk of the initial margin and default fund contribution being invoked in the event of failure of any settlement obligations. In addition, the fund contribution is allowed to be used to meet the residual loss in case of default by the other clearing member (the defaulting member).
- CCIL maintains two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty repo on Government securities or treasury bills trades. The mutual fund is exposed to the extent of its contribution to the default fund of CCIL, in the event that the contribution of the mutual fund is called upon to absorb settlement/ default losses of another member by CCIL, as a result the scheme may lose an amount equivalent to its contribution to the default fund.

XI. Risks associated with Investing in Structured Obligation (SO) & Credit Enhancement (CE) rated securities:

The risks factors stated below for the Structured Obligations & Credit Enhancement are in addition to the risk factors associated with debt instruments.

- Credit rating agencies assign CE rating to an instrument based on any identifiable credit enhancement for the debt instrument issued by an issuer. The credit enhancement could be in various forms such as guarantee, shortfall undertaking, letter of comfort, pledge of shares listed on stock exchanges etc. from the issuers, promoters or another entity. This entity could be either related or non-related to the issuer like a bank, financial institution, etc. Hence, for CE rated instruments evaluation of the credit enhancement provider, as well as the issuer is undertaken to determine the issuer rating.

- SO transactions are asset backed/ mortgage backed securities, securitized paper backed by hypothecation of loan receivables, securities backed by trade receivables, credit card receivables etc. In case of SO rated issuer, the underlying loan pools or securitization, etc. is assessed to arrive at rating for the issuer.

- Liquidity Risk: SO rated securities are often complex structures, with a variety of credit enhancements. Debt securities lack a well-developed secondary market in India, and due to the credit enhanced nature of CE securities as well as structured nature of SO securities, the liquidity in the market for these instruments is low as compared to similar rated debt instruments. Hence, lower liquidity of such instruments, could lead to inability of the scheme to sell such debt instruments and generate liquidity for the scheme or higher impact cost when such instruments are sold. Where equity shares are provided as collateral there is the risk of sharp price volatility of underlying securities which may lead to erosion in value of collateral as also low liquidity of the underlying shares which may affect the ability of the fund to enforce collateral and recover capital and interest obligations.

- Credit Risk: The credit risk of debt instruments which are CE rated derives rating based on the combined strength of the issuer as well as the structure. Hence, any weakness in either the issuer or the structure could have an adverse credit impact on the debt instrument. The weakness in structure could arise due to inability of the investors to enforce the structure due to issues such as legal risk, inability to sell the underlying collateral or enforce guarantee, etc. In case of SO transactions, comingling risk and risk of servicer increases the overall risk for the securitized debt or assets backed transactions. Therefore, apart from issuer level credit risk such debt instruments are also susceptible to structure related credit risk.

XII. Risks associated with segregated portfolio

- Investor holding units of segregated portfolio may not able to liquidate their holding till the time realisable value is recovered.
- Security comprising of segregated portfolio may realise lower value or may realise zero value.
- Listing of units of segregated portfolio in recognised stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units in the stock market. Further trading price of units on the stock market may be significantly lower than the prevailing NAV.

Key Scheme specific Risks

- In case of a large redemption, the scheme may need to reverse the spot-futures transaction before the date of futures settlement. This eventuality may lead to the basis risk.
- While reversing the spot-futures transaction on the Futures & Options settlement day on Exchanges, there could be a risk of volume-weighted-average-price of the market being different from the price at which the actual reversal is processed. This may result in basis risk.
- Since the scheme would also invest in equity & equity related instruments there would be moderate to high risk *on account of price fluctuations & volatility.
- Liquidity risk is moderate as the liquidity in some midcap stocks is low and may impact the scheme if there is a sudden large redemption.
- Since investments would be made in equity based derivatives such as options & futures, the risks associated with such derivatives would also be applicable.
- Since some portion of the portfolio may be invested in debt & money market securities, there would be moderate credit risk and moderate to low interest rate / price risk.
- The scheme endeavors to dynamically allocate the assets in accordance with the view of the fund manager between equity and debt asset classes. It is possible that the markets may not play out in accordance with the said view.

XIII. Risk Factors Associated with investing in Overseas Investment / Foreign securities:

Subject to necessary approvals and within the investment objectives of the Scheme, the Scheme may invest in overseas markets which carry risks related to fluctuations in the foreign exchange rates, the nature of the securities market of the country, repatriation of capital due to exchange controls and political circumstances.

It is the AMC's belief that investment in foreign securities offer new investment and portfolio diversification opportunities into multimarket and multi-currency products. However, such investments also entail additional risks. Such investment opportunities may be pursued by the AMC provided they are considered appropriate in terms of the overall investment objectives of the Scheme. Since the Scheme may invest only partially in overseas securities, there may not be readily available and widely accepted benchmarks to measure performance of the Scheme. To manage risks associated with foreign currency and interest rate exposure, the Fund may use derivatives for efficient portfolio management including hedging and in accordance with conditions as may be stipulated under the Regulations or by the RBI from time to time.

Overseas investments will be made subject to any/all approvals, conditions thereof as may be stipulated under the Regulations or by RBI and provided such investments do not result in expenses to the Fund in excess of the ceiling on expenses prescribed by and consistent with costs and expenses attendant to international investing. The Fund may, where necessary, appoint other intermediaries of repute as advisors, custodian/sub-custodians etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses. The fees and expenses would illustratively include, besides the investment management fees, custody fees and costs, fees of appointed advisors and sub-managers, transaction costs and overseas regulatory costs.

To the extent that the assets of the Scheme will be invested in securities denominated in foreign currencies, the Indian Rupee equivalent of the net assets, distributions and income may be adversely affected by changes in the value of certain foreign currencies relative to the Indian Rupee. The repatriation of capital to India may also be hampered by changes in regulations concerning exchange controls or political circumstances as well as the application to it of other restrictions on investment.

Currency Risk:
In respect of investments in ADRs/GDRs, the risks associated with underlying stocks remain the same except for the additional risk of the exchange rate of the Indian rupee visà- vis the currency in which ADRs/GDRs are denominated. Investments in overseas securities/mutual fund units are subject to currency risk. Returns to investors are the result of a combination of returns from investments and from movements in exchange rates. For example, if the Rupee appreciates vis-à-vis the US $, the extent of appreciation will lead to reduction in the yield to the investor. However, if the Rupee appreciates against the US $ by an amount in excess of the interest earned on the investment, the returns can even be negative. Again, in case the Rupee depreciates vis-à-vis the US $, the extent of depreciation will lead to a corresponding increase in the yield to the investor. Going forward, the Rupee may depreciate (lose value) or appreciate (increase value) against the currencies of the countries where the Scheme will invest.

Exhaustion of overseas limit Risk
The Scheme can invest in overseas securities subject to a maximum of US $1 billion within the overall industry limit of US $ 7 billion wherein US $ 50 million would be reserved for each mutual fund individually, with in the overall industry limit of US $ 7 billion or such limits as may be prescribed by SEBI from time to time and in overseas ETF subject to maximum of US $300 million such limits as may be prescribed by SEBI from time to time.

As and when the investment limits at Mutual Fund level/Industry level are exhausted or nearing exhaustion, the scheme may temporarily suspend deployment of funds in overseas funds/securities.

XIV. **Risk associated with investing in Mutual fund units**

Investment in units of Mutual Fund scheme involves investment risks such as trading volumes, settlement risk, liquidity risk, default risk including the possible loss of principal. As the price / value / interest rates of the underlying securities in which the mutual fund scheme invests fluctuates, the value of units of mutual fund scheme may go up or down. The value of underlying securities may be affected, inter-alia, by changes in the market, interest rates, changes in credit rating, trading volumes, settlement periods and transfer procedures; the NAV is also exposed to Price/Interest-Rate Risk and Credit Risk and may be affected inter-alia, by government policy, volatility and liquidity in the money markets and pressure on the exchange rate of the rupee. Investment in units of mutual fund scheme is also exposed to risk of suspension of subscriptions / redemptions of the units, change in fundamental attributes etc. Since the Scheme may invest in schemes of Mutual Funds, scheme specific risk factors of each such mutual fund schemes will be applicable to the Scheme portfolio.

All the above factors may not only affect the prices of securities but also the time taken by the Fund for redemption of Units, which could be significant in the event of receipt of a very large number of redemption requests or very large value redemption requests. The liquidity of the assets may be affected by other factors such as general market conditions, political events, bank holidays and civil strife. In view of this, redemption may be limited or suspended after approval from the Boards of Directors of the AMC and the Trustee, under certain circumstances as described elsewhere in the SAI.

XV. Risk Control/Risk Mitigation:

Type of Risks	Measures/ Strategies to control risks
Equity Markets/ Equity Oriented Instruments	Investment strategy The fund will comply with the prescribed SEBI limits on exposure. Risk is monitored and necessary action would be taken on the portfolio, if required. Attribution analysis is done to monitor the under or over performance vis a vis the benchmark and the reasons for the same. Portfolio volatility & concentration The overall volatility of the portfolio would be maintained in line with the objective of the scheme Volatility would be monitored with respect to the benchmark and peer set. Liquidity The scheme predominantly invests across market capitalisation which are actively traded and thereby liquid. The fund manager may also keep some portion of the portfolio in debt and money market instruments and/or cash within the specified asset allocation framework for the purpose of meeting redemptions. The liquidity would be monitored and necessary action would be taken on the portfolio if required. Stock turnover is monitored at regular intervals. The debt/money market instruments that are invested by the fund will have a short term duration.
Debt and Money Market instruments	• Credit Risk: Management analysis will be used for identifying company specific risks. Management's past track record will also be studied. In order to assess financial risk a detailed assessment of the issuer's financial statements will be undertaken. • Price-Risk or Interest-Rate Risk: The Scheme may primarily invest the debt portion of the portfolio in short term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the price volatility due to interest rate changes generally associated with long-term securities. • Risk of Rating Migration: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of rating migration generally associated with long-term securities • Basis Risk: The debt allocation of scheme is primarily as a cash management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. • Spread Risk: The Scheme may primarily invest the debt portion of the portfolio in short-term debt & money market instruments, units of Liquid and Overnight schemes thereby mitigating the risk of spread expansion which is generally associated with long-term securities • Reinvestment Risk: The debt allocation of scheme is primarily as a cash

	management strategy and such strategy returns are expected to reflect the very short term interest rate hence investment is done in short term debt and money market instruments. Reinvestment risks will be limited to the extent of debt instruments, which will be a very small portion of the overall portfolio value. • Liquidity Risk: The Scheme may, however, endeavor to minimize liquidity risk by primarily investing the debt portion of the portfolio in relatively liquid short-term debt & money market instruments, units of Liquid and Overnight schemes.
Derivatives	The Scheme may invest in derivative for the purpose of hedging, portfolio balancing and other purposes as may be permitted under the Regulations. Equity Derivatives will be used in the form of Index Options, Index Futures, Stock Options and Stock Futures and other instruments as may be permitted by SEBI. Derivatives can be either exchange traded or can be over the counter (OTC). Exchange traded derivatives are listed and traded on stock exchanges whereas OTC derivative transactions are generally structured between two counterparties. Exposure with respect to derivatives shall be in line with regulatory limits and the limits specified in the SID.
Securities Lending	The SLB shall be operated through Clearing Corporation/Clearing House of stock exchanges having nation-wide terminals who are registered as Approved Intermediaries (AIs)." The risk is adequately covered as Securities Lending & Borrowing (SLB) is an Exchange traded product. Exchange offers an anonymous trading platform and gives the players the advantage of settlement guarantee without the worries of counter party default. However, the Fund may not be able to sell such lent securities during contract period or have to recall the securities which may be at higher than the premium at which the security is lent.
Currency	The scheme subject to applicable regulations shall have the option to enter into forward contracts for the purposes of hedging against the foreign exchange fluctuations. The Schemes may employ various measures (as permitted by SEBI/RBI) including but not restricted to currency hedging (such as currency options and forward currency exchange contracts, currency futures, written call options and purchased put options on currencies and currency swaps), to manage foreign exchange movements arising out of investment in foreign securities. All currency derivatives trade, if any will be done only through the stock exchange platform.
Repo Transactions	This risk is largely mitigated, as the choice of counterparties is largely restricted and their credit rating is taken into account before entering into such transactions. Also operational risks are lower as such trades are settled on a DVP basis. In the event the counterparty is unable to pay back the money to the scheme as contracted on maturity, the scheme may dispose of the assets (as they have sufficient margin) and the net proceeds may be refunded to the counterparty
Securitized Debt	In addition to careful scrutiny of credit profile of borrower/pool additional security in the form of adequate cash collaterals and other securities may be obtained
REITs and InvITS	The fund will comply with the prescribed SEBI limits on exposure. The scheme will endeavour to invest in liquid REITs & InvITs.
Structured Obligation (SO)	Scheme wise investments as prescribed by the regulations limits the exposure to such securities. Additionally, covenants of such structured papers are reviewed

& Credit Enhancement (CE) rated securities	periodically for adequate maintenance of covers as prescribed in the Information Memorandum of such papers.
Government securities and Triparty repo on Government securities or treasury bills:	As a member of securities segment and Triparty repo segment, maintenance of sufficient margin is a mandatory requirement. CCIL monitors these on a real time basis and requests the participants to provide sufficient margin to enable the trades etc. Also there are stringent conditions / requirements before registering any participants by CCIL in these segments. Since settlement is guaranteed the loss on this account could be minimal though there could be an opportunity loss.
Units of mutual fund schemes	Mutual Fund portfolios are generally well diversified and typically endeavor to provide liquidly on a T+1/T+2 basis and aim to mitigate any risks arising out of underlying investments. Commodity ETF’s are quite liquid as they can either be created / redeemed with the fund house or traded on the exchange.

While these measures are expected to mitigate the above risks to a large extent, there can be no assurance that these risks would be completely eliminated.

The measures mention above is based on current market conditions and may change from time to time based on changes in such conditions, regulatory changes and other relevant factors. Accordingly, our investment strategy, risk mitigation measures and other information contained herein may change.in response to the same.

B. Requirement of Minimum Investors in the Scheme

The Scheme shall have a minimum of 20 investors and no single investor shall account for more than 25% of the corpus of the Scheme. In case the Scheme does not have a minimum of 20 investors, the provisions of Regulation 39(2)(c) of the SEBI (MF) Regulations would become applicable automatically without any reference from SEBI and accordingly the Scheme shall be wound up and the units would be redeemed at applicable NAV. The two conditions mentioned above shall also be complied within each subsequent calendar quarter thereafter, on an average basis, as specified by SEBI. If there is a breach of 25% limit by any investor over the quarter, a rebalancing period of one month would be allowed and thereafter the investor who is in breach of the rule shall be given 15 days’ notice to redeem his exposure over 25% limit. Failure on the part of the said investor to redeem his exposure over 25% limit within the aforesaid 15 days would lead to automatic redemption by the Mutual Fund on the applicable Net Asset Value on the 15th day of the notice period. The Fund shall adhere to the requirements prescribed by SEBI from time to time in this regard.

D. Special Consideration:

i) Prospective investors should review/study SAI along with SID carefully and in its entirety and shall not construe the contents hereof or regard the summaries contained herein as advice relating to legal, taxation, or financial/investment matters and are advised to consult their own professional advisor(s) as to the legal or any other requirements or restrictions relating to the subscriptions, gifting, acquisition, holding, disposal (sale, transfer, switch or redemption or conversion into money) of units and to the treatment of income (if any), capitalization, capital gains, any distribution, and other tax consequences relevant to their subscription, acquisition, holding, capitalization, disposal (sale, transfer, switch or redemption or conversion into money) of units within their jurisdiction/nationality, residence, domicile etc. or under the laws of any jurisdiction to which they or any managed Funds to be used to purchase/gift units are subject, and also to determine possible legal, tax, financial or other consequences of subscribing/gifting to, purchasing or holding units before making an application for units.

ii) Neither this SID and SAI, nor the units have been registered in any jurisdiction. The distribution of this SID in certain jurisdictions may be restricted or subject to registration and accordingly, any person who gets possession of this SID is required to inform themselves about, and to observe, any such restrictions. It is the responsibility of any persons in possession of this SID and any persons wishing to apply for units pursuant to this SID to inform themselves of and to observe, all applicable laws and Regulations of such relevant jurisdiction. Any changes in SEBI/NSE/RBI regulations and other applicable laws/regulations could have an effect on such investments and valuation thereof.

iii) Kotak Mahindra Mutual Fund/AMC has not authorised any person to give any information or make any representations, either oral or written, not stated in this SID in connection with issue of units under the Schemes. Prospective investors are advised not to rely upon any information or representations not incorporated in the SAI and SID as the same have not been authorised by the Fund or the AMC. Any purchase or redemption made by any person on the basis of statements or representations which are not contained in this SID or which are not consistent with the information contained herein shall be solely at the risk of the investor. The investor is requested to check the credentials of the individual, firm or other entity he/she is entrusting his/her application form and payment to, for any transaction with the Fund. The Fund shall not be responsible for any acts done by the intermediaries representing or purportedly representing such investor.

iv) If the units are held by any person in breach of the Regulations, law or requirements of any governmental, statutory authority including, without limitation, Exchange Control Regulations, the Fund may mandatorily redeem all the units of any Unit holder where the units are held by a Unit holder in breach of the same. The Trustee may further mandatorily redeem units of any Unit holder in the event it is found that the Unit holder has submitted information either in the application or otherwise that is false, misleading or incomplete.

v) In terms of the Prevention of Money Laundering Act, 2002 ("PMLA") the rules issued there under and the guidelines/circulars issued by SEBI regarding the Anti Money Laundering (AML) Laws, all intermediaries, including mutual funds, are required to formulate and implement a client identification programme, and to verify and maintain the record of identity and address(es) of investors.

vi) If after due diligence, the AMC believes that any transaction is suspicious in nature as regards money laundering, the AMC shall report any such suspicious transactions to competent authorities under PMLA and rules/guidelines issued thereunder by SEBI , furnish any such information in connection therewith to such authorities and take any other actions as may be required for the purposes of fulfilling its obligations under PMLA and rules/guidelines issued thereunder by SEBI without obtaining the prior approval of the investor/Unit holder/any other person.

III. INFORMATION ABOUT THE SCHEME

A. Type of the scheme:

An open ended dynamic asset allocation fund

B. What is the investment objective of the scheme?

The investment objective of the scheme is to generate capital appreciation by investing in a dynamically balanced portfolio of equity & equity related securities and debt & money market securities.

There is no assurance or guarantee that the investment objective of the scheme will be achieved.

C. How will the scheme allocate its assets?

The asset allocation under the Scheme, under normal circumstances, will be as follows:

Particulars	**Allocation**	**Risk Profile**
Equity & Equity related securities	65%-100%	High
Equity Derivatives	0%-45%	High
Debt Securities & Money Market instruments	0%-35%	Low to medium
Units of REITs & INVITs	0%-10%	Medium to High

Although the gross equity exposure would be maintained between 65%-100%, the net equity exposure can be brought down significantly below 65% by hedging through equity derivatives. For eg. if the gross exposure to equity is 70%, the fund manager may hedge 40% of this equity using derivatives to bring down the net exposure to 30%. The net equity exposure is thus dynamically managed and is increased when the fund manager has favourable view on equity as an asset class or is brought down when the view is not favourable or under defensive circumstances

The scheme may use derivatives as permitted by SEBI from time to time and subject to guidelines issued by SEBI from time to time. The cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), repo transactions in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.

- The scheme may also use fixed income derivatives instruments subject to guidelines as may be issued by SEBI and RBI from time to time.

- The scheme may invest in securitized debt upto50% of the debt allocation.

- The scheme is allowed to lend securities subject to a maximum of 50%, in aggregate, of the net assets of the Scheme and up to 50% of the net assets of the Scheme in the case of a single intermediary.

The Scheme will invest upto a maximum of 20% of its net assets in foreign securities as specified in the Para 12.19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 and any subsequent amendments thereto specified by SEBI and/or RBI from time to time. Scheme may invest in GDRs/ADRs including overseas markets in GDRs/ ADRs, overseas equity, bonds and mutual funds and such other instruments as may be allowed under the Regulations from time to time.

- The scheme may invest in another scheme of the Kotak Mahindra Mutual Fund or any other Mutual Fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the management of Kotak Mahindra Asset Management Company Limited or in schemes under the management of any other asset management company shall not exceed 5% of the net asset value of Kotak Mahindra Mutual Fund.

- The scheme shall participate in the corporate bond repo transactions and in accordance with extant SEBI/RBI guidelines and any subsequent amendments thereto specified by SEBI and/or RBI from time to time. The gross exposure of the scheme to repo transactions in corporate debt securities shall not be more than 10 % of the net assets of the concerned scheme.

- The Scheme may invest in listed/unlisted equity shares as per the extant SEBI (Mutual Funds) Regulations, 1996 and amended by SEBI from time to time. The scheme may also invest in listed/unlisted and/or rated/unrated debt or money market securities, provided the investments are within the limits indicated in the asset allocation pattern. Investment in unrated debt securities is made with the prior approval of the Board of the AMC, provided the investment is in terms of the parameters approved by the Board of the Trustee. Where the proposed investment is not within the parameters as mentioned above but within the limits prescribed under SEBI mutual fund regulations, approval of the Boards of both the AMC and the Trustee is taken before making the investment.

The cumulative gross exposure through equity, debt, derivative positions (including fixed income derivatives), repo transactions in corporate debt securities, Real Estate Investment Trusts (REITs), Infrastructure Investment Trusts (InvITs), other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time should not exceed 100% of the net assets of the scheme.

Portfolio Rebalancing:
Subject to Para 1.14.1.2 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, the asset allocation pattern indicated above may change for a short term period on defensive considerations, keeping in view market conditions, market opportunities, applicable regulations and political and economic factors. These proportions may vary depending upon the perception of the Fund Manager, the intention being at all times to seek to protect the interests of the Unit holders. In case of any deviation, the portfolio shall be rebalanced within 30 calendar days.

As per Para 2.9 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, in the event of any deviation from mandated asset allocation mentioned above, due to passive breaches, rebalancing period will be Thirty (30) business days. In case the portfolio is not rebalanced within Thirty (30) business days, justification in writing, including details of efforts taken to rebalance the portfolio shall be placed before the Investment Committee. The Investment Committee, if so desired, can extend the timelines up to sixty (60) business days from the date of completion of mandated rebalancing period. In case the portfolio of the scheme is not rebalanced within the aforementioned mandated plus extended timelines, the AMC shall not launch any new scheme till the time the portfolio is rebalanced and also not levy exit load, if any on the existing investors of the Scheme. However, at all times the portfolio will adhere to the overall investment objective of the Scheme.

D. Where will the scheme invest?

The amount collected under the scheme will be invested in equity and equity related instruments and debt and money market instruments. Subject to the Regulations, the amount collected under this scheme can be invested in any (but not exclusively) of the following securities/ debt instruments:

a. Equity and equity related securities including convertible bonds and debentures and warrants carrying the right to obtain equity shares.
b. Securities created and issued by the Central and State Governments and/or repos/reverse repos in such Government Securities as may be permitted by RBI (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills).
c. Debt obligations of domestic Government agencies and statutory bodies, which may or may not carry a Central/State Government guarantee (including but not limited to Indian Government Bond, State Development Loans issued and serviced at the Public Debt Office, Bonds issued by Central & State Government PSU's which are guaranteed by Central or State Governments)
d. Corporate debt (of both public and private sector undertakings) including Non convertible debentures (including bonds) and non-convertible part of convertible securities.
e. Money market instruments permitted by SEBI/RBI, having maturities of up to one year but not limited to:
    - Certificate of Deposits (CDs).
    - Commercial Paper (CPs)
    - Triparty repo on Government securities or treasury bills, Bills re-discounting*, as may be permitted by SEBI from time to time.
    - Repo of corporate debt securities
f. Securitised Debt, not including foreign securitised debt.
g. ADRs, GDRs or other foreign securities.
h. Securities Lending & Borrowing as permitted by SEBI from time to time
i. Investment in units of Real Estate Investment Trust ('REIT') & Infrastructure Investment Trust ('InvIT').
j. Any other domestic fixed income securities as permitted by SEBI / RBI from time to time.
k. Derivative instruments like interest rate swaps, index futures, stock futures, index options, stock option, warrants, convertible securities, or any other derivative instruments that are permissible or may be permissible in future under applicable regulations. To reduce interest rate risk in a debt portfolio, the scheme may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs) (both perfectly and imperfectly hedged)
l. Any other instruments / securities, which in the opinion of the fund manager would suit the investment objective of the scheme subject to compliance with extant Regulations.

* The investment in Bills Rediscounting will be on ‘with recourse’ basis and will be to 10% of the net assets of the scheme”

The securities/debt instruments mentioned above could be listed or unlisted, secured or unsecured, rated and of varying maturities and other terms of issue. The securities may be acquired through Initial Public Offerings (IPOs), secondary market operations, private placement, rights offer or negotiated deals. The Schemes may also enter into repurchase and reverse repurchase obligations in all securities held by it as per guidelines/regulations applicable to such transactions.

INVESTMENT IN FOREIGN SECURITIES

The Scheme may also invest in suitable investment avenues in overseas financial markets for the purpose of diversification, commensurate with the Scheme objectives and subject to the provisions of Psara 12. 19 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 may be amended from time to time and any other requirements as may be stipulated by SEBI/RBI from time to time**.**

The Scheme may, in terms of its investment objectives with the approval of SEBI/RBI invest in following Foreign Securities:

i. ADRs/ GDRs issued by Indian or foreign companies
ii. Equity of overseas companies listed on recognized stock exchanges overseas
iii. Initial and follow on public offerings for listing at recognized stock exchanges overseas
iv. Foreign debt securities in the countries with fully convertible currencies, short term as well as long term debt instruments with rating not below investment grade by accredited/registered credit rating agencies
v. Money market instruments rated not below investment grade
vi. Repos in the form of investment, where the counterparty is rated not below investment grade; repos should not however, involve any borrowing of funds by mutual funds
vii. Government securities where the countries are rated not below investment grade
viii. Derivatives traded on recognized stock exchanges overseas only for hedging and portfolio balancing with underlying as securities
ix. Short term deposits with banks overseas where the issuer is rated not below investment grade
x. Units/securities issued by overseas mutual funds or unit trusts registered with overseas regulators and investing in
(a) aforesaid securities,
(b) Real Estate Investment Trusts (REITs) listed in recognized stock exchanges overseas or
(c) unlisted overseas securities (not exceeding 10% of their net assets).

The Scheme can invest in overseas securities subject to a maximum of US $1 billion within the overall industry limit of US $ 7 billion wherein US $ 50 million would be reserved for each mutual fund individually, with in the overall industry limit of US $ 7 billion or such limits as may be prescribed by SEBI from time to time and in overseas ETF subject to maximum of US $300 million such limits as may be prescribed by SEBI from time to time . An investment headroom of 20% of the average AUM in Overseas securities of the previous three calendar months would be available to the Mutual Fund for that month to invest in Overseas securities / Overseas ETFs subject to maximum limits of US $ 1 billion per Mutual Fund.

The Mutual Fund may, where necessary appoint intermediaries as sub-managers, sub-custodians, etc. for managing and administering such investments. The appointment of such intermediaries shall be in accordance with the applicable requirements of SEBI and within the permissible ceilings of expenses as stated under Regulation 52 of SEBI (MF) Regulations.

Investment in Derivatives:

As part of the Fund Management process, the Scheme, may use derivative instruments such as index futures and options, stock futures and options contracts, or any other derivative instruments that are permissible or may be permissible in future under applicable regulations and such investments shall be in accordance with the investment objectives of the Scheme.

Index futures/options are meant to be an efficient way of buying/selling an index compared to buying/selling a portfolio of physical shares representing an index for ease of execution and settlement. Index futures/options can be an efficient way of achieving the Schemes' investment objective. Notwithstanding the pricing, they can help in reducing the Tracking Error in the Schemes. Index futures/options may avoid the need for trading in individual components of the index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the individual stocks. Index futures/options can also be helpful in reducing the transaction costs and the processing costs on account of ease of execution of one trade compared to several trades of shares comprising the Underlying Index and will be easy to settle compared to physical portfolio of shares representing the Underlying Index. In case of investments in index futures/options, the risk/reward would be the same as investments in portfolio of shares representing an index. However, there may be a cost attached to buying an index future/option. Further there could be an element of settlement risk, which could be different from the risk in settling physical shares. This settlement risk is likely to be minimized if the exchange acts as the clearing corporation and the counter party, as is the practice in the developed markets. The Schemes will not maintain any leveraged or trading positions.

Purpose of investment in derivatives

1. The Scheme shall fully cover its positions in the derivatives market by holding underlying securities/cash or cash equivalents/option and/or obligation for acquiring underlying assets to honour the obligations contracted in the derivatives market.
2. Separate records shall be maintained for holding the cash and cash equivalents/securities for this purpose.
3. The securities held would be marked to market by the AMC to ensure full coverage of investments made in derivative products at all time.
4.

The Scheme may use derivative instruments such as index futures, stock futures, index options, stock options, or any other derivative instruments that are permissible or may be permissible in future under applicable regulations, as would be commensurate with the investment objective of the Scheme. The manner of use of derivatives instruments is illustrated below:

Hedging & Portfolio balancing

As part of the fund management exercise under the Scheme, the Trustee may permit the use of any of the instruments mentioned above or any other instrument that may become permissible in the future under applicable regulations. Such investment in Index futures, Stock options, Index Options, Stock Futures and other derivative instruments will be used with the objective of a) hedging the portfolio and/or b) rebalancing of the portfolio of the Scheme or c) for any other purpose as may be permitted by the Regulations from time to time.

The note below explains the concept of Index Futures, Options, with an example each, for the understanding of the Unitholders.

Index Futures

Due to ease of execution and settlement, index futures are an efficient way of buying / selling an Index compared to buying / selling a portfolio of physical shares representing an Index. Index futures can be an efficient way of achieving a Scheme's investment objectives. Index futures may do away with the need for trading in individual components of the Index, which may not be possible at times, keeping in mind the circuit filter system and the liquidity in some of the scripts. Index futures can also be helpful in reducing transaction costs and processing costs on account of ease of execution of one trade compared to several trades of shares comprising the Index and will be easy to settle compared to physical portfolio of shares representing an Index

The National Stock Exchange and the Bombay Stock Exchange introduced Index futures on Nifty (NSE-50) and Sensex (BSE 30) for three serial months. For example, in the month of September 2022, three futures were available i.e. September, October and November 2022, each expiring on the last working Thursday of the respective month

Let us assume the Nifty Index was 19,638.3 as on September 29, 2023 and three future indices were available as under:

Month	**Bid Price**	**Offer Price**
October 2023	19708	19710
November 2023	19824	19828
December 2023	19930	19940

The Fund could buy an Index of October 2023 as on September 29, 2023 at an offer price of 19710. The Fund would have to pay the initial margin as regulated by the exchanges and settle its Index position with daily marked to market i.e. receive profits/pay losses on a daily basis.

The following is a hypothetical example of a typical index future trade and the associated costs compared with physical stocks.

(Amount in Rupees)

Particulars	**Index Future**	**Actual Purchase of Stocks**
Index as on September 29, 2023	19638.3	19638.3
October 2023 Futures Cost	19710	
A. Execution Cost		
Carry costs (19710-19638.3)	71.7	Nil
B. Brokerage Cost		
Assumed at 0.02% for Index Future and 0.05% for spot stocks (0.02% of 19710) (0.05% of 19638.3)	3.94	9.82
C. Securities Transaction Tax STT for Index Futures is Nil STT for Spot Stocks is 0.10% (0.10% of 19638.3)	Nil	19.64
D. Gains on Surplus Funds (Assuming 6% return on 81% of the money left after paying (19% margin) (6% x 19638.3 x 81% x 27 days ÷ 365)	(70.6)	Nil

Cash Market/ Sale Price at expiry	19800	19800
E. Brokerage on Sale		
Assumed at 0.02% for Index Future and 0.05% for Spot stocks (0.02% of 19800) (0.05% of 19800)	3.96	9.9
F. Securities Transaction Tax STT for Index Futures is 0.0125% STT for Spot Stocks is 0.10% (0.0125% of 19800) (0.10% of 19800)	2.48	19.8
Total Cost (A+B+C-D+E+F)	**11.48**	**59.16**
Profit	**150.22**	**102.54**

As the above example demonstrates, the cost differential between purchasing Index Future and 50 stocks compromising Nifty (NSE-50) is a function of the carrying cost, the interest earned available to Fund Managers and the brokerage cost applicable in both cases. However, as mentioned earlier, as the Indian equity markets continues to have limitations in execution of trades due to the lack of adequate liquidity and the concept of circuit breakers, index future can allow a fund to buy all the stocks comprising the index at a nominal additional cost.

Please note that the above example is hypothetical in nature and the figures, brokerage rates etc. are assumed. In case the execution and brokerage costs on purchase of Index Futures are high and the returns on surplus funds are less, buying of index future may not be beneficial as compared to buying stocks comprising the Index. The actual return may vary based on actuals and depends on final guidelines / procedures and trading mechanism as envisaged by stock exchanges and other regulatory authorities.

Use of futures

Futures can effectively be used as a substitute for underlying stocks e.g. if the Scheme has received fresh subscriptions and if it is not immediately possible to invest the cash so received into intended stocks, the Fund Manager can buy a Future contract and subsequently replace them by actual purchase of stocks. The reverse can be done in case of redemption of Units.

The Scheme typically holds cash in order to meet sudden redemption requests. This cash holding reduces the overall returns of the Scheme. By buying futures relative to this cash holding the Scheme can effectively increase its exposure to the market while keeping the cash required to meet redemption requirement.

Note on Risk:

- In case of investments in index futures, the risk would be the same as in the case of investments in a portfolio of shares representing an index. The extent of loss is the same as in the underlying stocks. In case futures are used for hedging a portfolio of stocks, which is different from the index stocks, the extent of loss could be more or less depending on the coefficient of variation of such portfolio with respect to the index; such coefficient is known as Beta.

- Interest Rate Risk – interest rate is one of the variables while valuing derivatives such as futures & options. For example, with everything remaining constant, when interest rates increase, the price of Call option would increase. Thus, fluctuations in interest rates would result in volatility in the valuation of derivatives.

- Credit Risk – With the implementation of physical settlement of stocks in equity derivative segment, though there is an element of risk of stock / funds not being received, the same is mitigated due to settlement guarantee similar to equity cash market segment.

- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

Option Contracts (Stock and Index)
In the global financial markets, particularly securities markets, options have been, for quite many years, a means of conveying rights from one party to another at a specified price on or before a specific date, at a cost, which is called Premium. The underlying instrument can be an individual stock or a stock index such as the BSE Sensex (such options being referred to as index options). Options are used widely the world over to manage risk and generate income. options may be preferred over futures as they provide 0asymmetric pay offs.

There are broadly two kinds of Options trade viz. Long & Short. A Long Call is buying a Call option to purchase the stock at a later date at a fixed price called the strike price. A Long Put on the other hand is buying Put option i.e. an option to sell the stock at a later date at the strike price. Similarly A Short Call is selling a Call option which is also called writing a Call option by which the option writer has an obligation to sell the stock to the call buyer at the strike price. A Short Put is to sell or write a Put option i.e. an obligation to buy the stock from the Put buyer at the strike price. The specified price at which the shares are contracted to be purchased or sold is called the strike price. Options that can be exercised on or before the expiration date are called American Options, while those that can be exercised only on the expiration date are called European Options. Option contracts are designated by the type of option, name of the underlying, expiry month and the strike priceExample for Options

<u>Buying a Call Option:</u> Let us assume that the Scheme buys a call option of ABC Ltd. with strike price of Rs. 3500, at a premium of Rs. 100. If the market price of ABC Ltd on the expiration date is more than Rs. 3500, the option will be exercised. The Scheme will earn profits once the share price crosses Rs. 3600 (Strike Price + Premium i.e. 3500+100). Suppose the price of the stock is Rs. 3800, the option will be exercised and the Scheme will buy 1 share of ABC Ltd. from the seller of the option at Rs 3500 and sell it in the market at Rs. 3800, making a profit of Rs. 200. In another scenario, if on the expiration date the stock price falls below Rs. 3500, say it touches Rs. 3000, the Scheme will choose not to exercise the option. In this case the Scheme loses the premium (Rs. 100), which will be the profit earned by the seller of the call option.

Thus for an option buyer, loss is limited to the premium that he has paid and gains are unlimited. The risk of an option writer i.e. the seller of the option, is unlimited while his gains are limited to the premiums earned. However, in the case of the Scheme, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss as illustrated in the example below.

Buying a Put Option: Let us assume that the Scheme owns shares of ABC Ltd., which are trading at Rs. 3500. The fund manager expects the price to rise to Rs. 3800 but at the same time wants to protect the downside. So, he can buy a put option at Rs. 3500 by paying a premium of, say, Rs. 100. If the stock falls to say Rs 3200 by expiry, the option becomes in-the-money by Rs. 300 and the scheme loses only the initial premium paid to buy the hedge. On the contrary, if the fund manager's view turns out to be right and the stock actually rallies to Rs. 3800, the scheme gains Rs. 300 from the stock and the hedging cost paid to buy the protection is the loss. Thus, adjusted for the hedging cost, the scheme gains Rs. 200 from the trade.

The above example is hypothetical in nature and all figures are assumed for the purpose of illustrating the use of call options in individual stocks. Similarly, analogies can be drawn to illustrate the use of put options in individual stocks, and call and put options in index.

Writing a Call Option: Let us assume that the Fund owns shares of ABC Ltd., which are trading at Rs. 3500. The Fund wishes to sell these shares at Rs.3800. It can write call option at Rs. 3800 and earn a premium of, say, Rs. 50. If the option is not exercised, the Fund earns a premium and if the stock price does reach Rs. 3800, the premium adds to the profits that the Fund would have booked by selling at that price. In this case, if the stock price of ABC Ltd. is less then Rs. 3800, the Fund earns Rs 50 and if it closes above Rs. 3800 and the option gets exercised by the buyer, the Fund gets the strike price of Rs. 3800 plus a premium of Rs. 50, i.e. effectively Rs. 3850. Any loss because of stock price movement beyond Rs. 3850 is actually an opportunity loss, as the Fund would otherwise have sold the shares at Rs. 3800.

The above example is hypothetical in nature and all figures are assumed for the purpose of illustrating the use of call options in individual stocks. Similarly, analogies can be drawn to illustrate the use of put options in individual stocks, and call and put options in index.

Note on Risk: The risk (loss) for an option buyer is limited to the premium paid, while the risk (loss) of an option writer is unlimited, the latter's gain being limited to the premiums earned. However, in the case of the Fund, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the strike price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the strike price.

The Scheme will use options only for the purpose of hedging and portfolio balancing or for any purpose as permitted by Regulations from time to time. Internal controls / limits for managing risks associated with options have been set up / laid down.

Benefits of Covered Call Strategy:

Covered call writing is a strategy where a writer (say the Fund) will hold a particular stock, and sell in the market a call option on the stock. Here the buyer of the call option now has the right to buy this stock from the writer (the Fund) at a particular price which is fixed by the contract (the strike price). The writer receives a premium for selling a call, but if the call option is exercised, he has to sell the underlying stock at the strike price. This is advantageous if the strike price is the level at which the writer wants to exit his holding / book profits. The writer effectively gains a fixed premium in exchange for the probable opportunity loss that comes from giving up any upside if the stock goes up beyond the strike price.

Illustration/Example of Covered Call Strategy:

The Scheme owns 5000 shares of A with a current market price of Rs 180. The view of the fund manager is that the price could decline by Rs 15 – Rs 20 over a one-month period. The fund manager does, however, wish to hold the shares due to the positive long-term outlook. The fund manager can cover the expected near-term decline by writing a call or buying a put.

A call option may be sold for a contract size of 5000 at a strike price of Rs 180 with an expiry date that is one month going forward. The Scheme receives a premium of Rs 10 (for example) for writing this call option in favour of the buyer. The buyer has the choice to buy the shares at Rs 180 on expiry date (usually the last Thursday of a month). The following are examples based on price trends after one month:

• if the stock price declines to Rs 170, the buyer of the call option will not exercise the right to buy as the stock can be purchased at a lower price in the spot market. The fund manager has ensured that the Rs 180 prevailing at the time of selling the option is protected through a combination of market price of Rs 170 and earned premium of Rs 10;

• If the stock price dips below Rs 170, the buyer will not exercise the option. The loss for the fund manager is limited to the extent to which price dips below Rs 170, as the decline from Rs 180 to Rs 170 is covered by the earned premium;

• If the stock price rises to Rs 190, the buyer of the option will exercise the right to buy the shares he can buy them at the strike price of Rs 180 and if he chooses to sell at the spot of Rs 190 to make a profit of Rs 10 per share. This price trend is, however, contrary to the expectations of the fund manager. There is no loss for the fund manager as he has already received Rs 10 as premium. This will ensure that his effective price in meeting the comportment to the holder of the call option is Rs 180 and

• If the stock price rises to more than Rs 190, the buyer will exercise the option. The loss to the fund manager will be limited to the extent to which the price is higher than Rs 190, as the premium of Rs 10 will cover partially the higher cost of the shares that have to be purchased to meet the commitment under the option.

The above example is hypothetical in nature and all figures are assumed for the purpose of illustrating the use of call options in individual stocks. Similarly, analogies can be drawn to illustrate the use of put options in individual stocks, and call and put options in index.

Note on Risk: The risk (loss) for an option buyer is limited to the premium paid, while the risk (loss) of an option writer is unlimited, the latter's gain being limited to the premiums earned. However, in the case of the Fund, all option positions will have underlying assets and therefore all losses due to price-movement beyond the strike price will actually be an opportunity loss. The writer of a put option bears a risk of loss if the value of the underlying asset declines below the strike price. The writer of a call option bears a risk of loss if the value of the underlying asset increases above the strike price.

Interest Rate Futures (IRFs)
IRF means a standardized interest rate derivative contract traded on a recognized stock exchange to buy or sell a notional security or any other interest bearing instrument or an index of such instruments or interest rates at a specified future date, at a price determined at the time of the contract. Hedging using interest rate futures could be perfect or imperfect, subject to applicable regulations. Currently, exchange traded Interest Rate Futures traded on exchange are standardized contracts based on 10-Year Government of India Security and 91 day Treasury bill. IRF contracts are cash settled. IRFs give an opportunity in the fixed income market to hedge interest rate risk or rebalance the portfolio by using them. By locking into a price, the IRF contract can help to eliminate the interest rate risk. Thus, in order to protect against a fall in the value of the portfolio due to falling bond prices, one can take short position in IRF contracts. Example: Date: Sep 01, 2023 Spot price of the Government Security: Rs.105 Price of IRF– Sep contract: Rs. 105.5 On Sep 01, 2023, Fund buys 100 units of the Government security from the spot market at Rs. 105. Subsequently, it is anticipated that the interest rate will rise in the near future. Therefore to hedge the exposure in underlying Government security, Fund sells Sep Interest Rate Futures contracts at Rs. 105.5. On Sep 15, 2023 due to increase in interest rate: Spot price of the Government Security: Rs. 104 Futures Price of IRF Contract: Rs.104.2 Loss in underlying market will be (105 – 104)*100 = (Rs. 100) Profit in the Futures market will be (105.50 – 104.2)*100 = Rs. 130

Imperfect Hedge

Illustration for Imperfect Hedging Scenario 1 and 2

Assumption: Portfolio whose duration is 3 years, is being hedged with an IRF whose underlying securities duration is 10 years

Portfolio Duration: 5 year

Market Value of Portfolio: Rs 100 crs

Imperfect Hedging cannot exceed 20% of Portfolio
Maximum extent of short position that may be taken in IRFs is as per below mentioned formula: Portfolio (security) Modified Duration * Market Value of Portfolio (security) / (Futures Modified Duration * Futures Price/PAR)

Consider that we choose to hedge 20% of portfolio (5 * (0.2 * 100))/(10 * 100/100) = Rs 10 crs

So we must Sell Rs 10 cr of IRF with underlying duration of 10 years to hedge Rs 100 of Portfolio with duration of 5 years.

Scenario 1 If the yield curve moves in a way that the 5 year moves up by 10 bps and the 10 year moves up by 5bps, which means that the short end has moved up more than the long end

Amount of Security in Portfolio (LONG): Rs 100 cr

If yields move up buy 10 bps then the price of the security with a modified duration of 5 years will move down by;

Formula: (Yield movement * Duration) * Portfolio Value ((0.001 * 5) * 1,00,00,00,000)= - 50,00,000

Underlying IRF (SHORT): Rs 10 crs

If yields move up buy 5bps then the price of the security with a duration of 10 years will move down by; Formula: (Yield movement * Duration) * Portfolio Value (-0.0005*10) * 10,00,00,000 = 5,00,000 Since we have sold the IRF, this movement is positive and hence the total loss will be reduced to: -50,00,000 + 5,00,000= -45,00,000

Due to IRF, the overall impact on the portfolio due to interest rate movement has been reduced.
Scenario 2 If the yield curve moves in a way that the 5 year does not move and the 10 year moves down by 5 bps, which means that the yield curve has flattened.

If yield does not move then the price of the security with a duration of 5 years will remain flat: Formula: (Yield movement * Duration) * Portfolio Value (0*5) * 100,00,00,000 = 0

Underlying IRF (SHORT): Rs 10 cr If yields moves down by 5bps then the price of the security with a duration of 10 years will move up by; (0.0005*10) * 10,00,00,000 = -5,00,000 In this scenario, the imperfect hedge created on the portfolio would create a loss on the total position.

The fund will use derivatives instruments for the purpose hedging or portfolio rebalancing or for any other stock and / or index derivative strategies as allowed under the SEBI regulations.

Note on Risk:

- Potential loss associated with imperfect hedge using IRFs – While using such strategy may reduce interest rate risk caused by rise in interest rates, it also restricts the profit in case interest rates decline.
- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.
- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.
- Credit Risk – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.
- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.
- Movement in the prices of securities in the portfolio and the IRF contract used to hedge part of the portfolio may lead to basis risk due to imperfect correlation. Thus, the loss on the portfolio may be different from the gain of the hedged position entered using the IRF.

Hedging

Holders of the GOI securities are exposed to the risk of rising interest rates, which in turn results in the reduction in the value of their portfolio. So in order to protect against a fall in the value of their portfolio due to falling bond prices, they can take short position in IRF contracts.

<u>Example:</u>

On 17/09/2023 buy 7.26 G sec 2033: Rs. 100.19 at the current market price of Rs. 100.19

Step 1 - Short the 27/09/2023 IRF futures contract at say price of Rs. 100.29 (assuming IRF trading at premium)

Step 2 – Earn the carry (running yield) of the 10 yr G sec of 7.23% from date of purchase till IRF expiry.

Step 3 – IRF and cash market price will converge on the maturity of the contract hence sell the bond on the maturity.

Under the strategy, the trader has earned a return of

- Arbitrage = (100.29-100.19) / 100.19 * 365 / 10 = 3.65%
- Current yield of G sec = 7.23%
- Arbitrage + current yield of G sec = 10.88 % (Holding period Arbitrage)

(Note: For simplicity accrued interest is not considered for calculation)

Assuming IRF is trading at premium the above trade will be done.

Note on Risk:

- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.

- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.

- Credit Risk – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.

- Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivates may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

Arbitrage
Arbitrage is the price difference between the bonds prices in underlying bond market and IRF contract without any view about the interest rate movement. One can earn the risk-less profit from realizing arbitrage opportunity and entering into the IRF contract.
Example:

Date: 17/09/2023

Spot price of G sec 7.26 G sec 2033: Rs. 100.19

Futures price of IRF Contract G sec 7.26 G sec 2033: Rs.100.29

On 17/09/2023 XYZ bought 2000 GOI securities from spot market at Rs100.19. He anticipates that the interest rate will rise in near future. Therefore, to hedge the exposure in underlying market he may sell IRF for7.26 G sec 2033 maturing on 27 Sep 2023 traded Interest Rate Futures contracts at Rs.100.29

On 27/09/2022 the maturity price of the contract and underlying will be same thereby realising the 10p arbitrage gain

Spot price of GOI Security: Rs. 100.19

Futures Price of IRF Contract: Rs. 100.29

Profit /Loss in underlying market will be (100.19-100.19)*2000 = Rs.00
Loss in the Futures market will be (100.29-100.19)*2000 = Rs. 20000
Therefore the fund will earn a total holding period return of 7.23% + (0.10/10*365)= 7.23+3.65=10.88
Not necessary the future is trading above cash for arbitrage to happen.

Note on Risk:

- The risk related to hedging for use of derivatives, (apart from the derivatives risk mentioned above) is that event of risk, which we were anticipating and hedged our position to mitigate it, does not happen. In such case, the cost incurred in hedging the position would be a avoidable charge to the scheme net assets.

- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.

  Liquidity risk pertains to how saleable a security is in the market. All securities/instruments irrespective of whether they are equity, bonds or derivatives may be exposed to liquidity risk (when the sellers outnumber buyers) which may impact returns while exiting opportunities.

Interest Rate Swap (IRS)
IRS is a widely used derivative product in the financial markets to manage interest rate risk. A typical transaction is a contract to exchange streams of interest rate obligation/income on a notional principal amount with a counter party, usually a bank. The two interest streams are, fixed rate on one side and floating rate on the other.

Example: Suppose the Fund holds a fixed rate bond of maturity 5 years carrying a fixed interest rate (YTM) of 7.25% p.a. payable half yearly. Such an investment runs the risk of depreciation if interest rates rise. To manage this risk, the Fund can enter into an IRS with another market participant, here the Fund contracts to pay fixed rate, say 6.85% p.a., and receive a floating rate (say overnight MIBOR). This transaction is done for a notional principal amount equal to the value of the investment. By such a contract a fixed rate income is offset by a fixed rate payment obligation leaving only a floating rate income stream. Thus, without actually investing in a floating rate asset, the Fund starts earning a floating rate income, reducing the risk of depreciation associated with the fixed rate investment. Following table summarises the cash flow streams:

Original investment	7.25% p.a.
Pay (Fixed rate)	6.85% p.a. (IRS)
Receive (Floating rate)	MIBOR
Net Flow	MIBOR + 0.40% p.a. (*)

* (7.25% p.a. – 6.85 % p.a.)
The floating rate reference is defined in the swap agreement.

The above example illustrates a case of fixed to floating rate swap. A swap could be done to move from floating rate to fixed rate in a similar fashion.

Please note that the above example is hypothetical in nature and the interest rates are assumed. The actual return may vary based on actual and depends on the interest rate prevailing at the time the swap agreement is entered into.

The Scheme will be allowed to take exposure in Interest Rate Swaps only on a non-leveraged basis. A swap will be undertaken only if there is an underlying asset in the portfolio.

The Scheme may use other derivatives such as interest rate futures, etc, to meet the investment objective of the Scheme, whenever such instruments are available in the market.

Note on Risk:

- Limitations on upside: Derivatives when used as hedging tool can also limit the profits from a genuine investment transaction.

- Credit Risk – The credit risk in derivative transaction is the risk that the counter party will default on its obligations and is generally low, as there is no exchange of principal amounts in a IRS / IRF derivative transaction.

Limits for investment in derivatives instruments

In accordance with Para 7.5 and 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the following conditions shall apply to the Scheme's participation in the derivatives market. The investment restrictions applicable to the Scheme's participation in the derivatives market will be as prescribed or varied by SEBI or by the Trustees (subject to SEBI requirements) from time to time.

I. Position limit for the Mutual Fund in equity index options contracts

a. The Mutual Fund position limit in all equity index options contracts on a particular underlying index shall be Rs. 500 crore or 15% of the total open interest of the market in equity index option contracts, whichever is higher,
b. This limit would be applicable on open positions in all options contracts on a particular underlying index.

ii. Position limit for the Mutual Fund in equity index futures/stock futures contracts:

The Mutual Fund position limit in all equity index futures/stock futures contracts on a particular underlying index shall be Rs. 500 crore; or
15% of the total open interest in the market in equity index futures/stock futures contracts, whichever is higher,

This limit would be applicable on open positions in all futures contracts on a particular underlying index.

iii. Additional position limit for hedging.

In addition to the position limits at point (i) and (ii) above, Mutual Fund may take exposure in equity index derivatives subject to the following limits:

Short positions in index derivatives (short futures, short calls and long puts) shall not exceed (in notional value) the Mutual Fund's holding of stocks.

Long positions in index derivatives (long futures, long calls and short puts) shall not exceed (in notional value) the Mutual Fund's holding of cash, government securities, T-Bills and similar instruments.

iv. Position limit for the Mutual Fund for stock based derivative contracts

The combined futures and options position limit shall be 20% of applicable MWPL

v. Position limit for the Scheme

The position limits for the Scheme and disclosure requirements are as follows–

For stock option and stock futures contracts, the gross open position across all derivative contracts on a particular underlying stock of a scheme of the Mutual Fund shall not exceed the higher of: 1% of the free float market capitalisation (in terms of number of shares).

Or

5% of the open interest in the derivative contracts on a particular underlying stock (in terms of number of contracts).

This position limit shall be applicable on the combined position in all derivative contracts on an underlying stock at a Stock Exchange.

For index based contracts, the Mutual Fund shall disclose the total open interest held by its scheme or all schemes put together in a particular underlying index, if such open interest equals to or exceeds 15% of the open interest of all derivative contracts on that underlying index.

As and when SEBI notifies amended limits in position limits for exchange traded derivative contracts in future, the aforesaid position limits, to the extent relevant, shall be read as if they were substituted with the SEBI amended limits.

As per paragraph 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 on “norms for investment and disclosure by Mutual Funds in derivatives”, , the limits for exposure towards derivatives are as under:

1. Mutual Funds shall not write options or purchase instruments with embedded written options except for the covered call strategy.
2. The cumulative gross exposure through equity, debt and derivative positions should not exceed 100% of the net assets of the scheme.
3. The total exposure related to option premium paid must not exceed 20% of the net assets of the scheme.
4. Cash or cash equivalents with residual maturity of less than 91 days may be treated as not creating any exposure.
5. Exposure due to hedging positions may not be included in the above mentioned limits subject to the following :-
    a. Hedging positions are the derivative positions that reduce possible losses on an existing position in securities and till the existing position remains.
    b. Hedging positions cannot be taken for existing derivative positions. Exposure due to such positions shall have to be added and treated under limits mentioned in Point 1.
    c. Any derivative instrument used to hedge has the same underlying security as the existing position being hedged.
    d. The quantity of underlying associated with the derivative position taken for hedging purposes does not exceed the quantity of the existing position against which hedge has been taken.
6. Mutual Funds may enter into plain vanilla interest rate swaps for hedging purposes. The counter party in such transactions has to be an entity recognized as a market maker by RBI. Further, the value of the notional principal in such cases must not exceed the value of respective existing assets being hedged by the scheme. Exposure to a single counterparty in such transactions should not exceed 10% of the net assets of the scheme.
7. Exposure due to derivative positions taken for hedging purposes in excess of the underlying position against which the hedging position has been taken, shall be treated under the limits mentioned in point 1.
8. Exposure in derivative positions shall be computed as follows:

Position	Exposure
Long Future	Futures Price * Lot Size * Number of Contracts
Short Future	Futures Price * Lot Size * Number of Contracts
Option bought	Option Premium Paid * Lot Size * Number of Contracts

Writing of Covered Call Options by Mutual Fund Schemes:
a. Mutual Fund schemes (except Index Funds and ETFs) may write call options only under a covered call strategy for constituent stocks of NIFTY 50 and BSE SENSEX subject to the following:

b. The total notional value (taking into account strike price as well as premium value) of call options written by a scheme shall not exceed 15% of the total market value of equity shares held in that scheme.

c. The total number of shares underlying the call options written shall not exceed 30% of the unencumbered shares of a particular company held in the scheme. The unencumbered shares in a scheme shall mean shares that are not part of Securities Lending and Borrowing Mechanism (SLBM), margin or any other kind of encumbrances.

d. At all points of time the Mutual Fund scheme shall comply with the provisions at paragraph (a) and (b) above. In case of any passive breach of the requirement at paragraph (a), the respective scheme shall have 7 trading days to rebalance the portfolio. During the rebalancing period, no additional call options can be written in the said scheme.

e. In case a Mutual Fund scheme needs to sell securities on which a call option is written under a covered call strategy, it must ensure compliance with paragraphs (a) and (b) above while selling the securities.

f. In no case, a scheme shall write a call option without holding the underlying equity shares. A call option can be written only on shares which are not hedged using other derivative contracts.

g. The premium received shall be within the requirements prescribed in terms of Para 12.25.2 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 i.e. the total gross exposure related to option premium paid and received must not exceed 20% of the net assets of the scheme.

h. The exposure on account of the call option written under the covered call strategy shall not be considered as exposure in terms of Para 12.24.1 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

i. The call option written shall be marked to market daily and the respective gains or losses factored into the daily NAV of the scheme until the position is closed or expired.

As and when SEBI notifies amended limits in position limits for exchange traded derivative contracts in future, the aforesaid position limits, to the extent relevant, shall be read as if they were substituted with the SEBI amended limits.

Investment in Derivatives- Interest Rate Futures (IRFs) (both perfectly and imperfectly hedged):

To reduce interest rate risk in a debt portfolio, scheme may hedge the portfolio or part of the portfolio (including one or more securities) on weighted average modified duration basis by using Interest Rate Futures (IRFs). The maximum extent of short position that may be taken in IRFs to hedge interest rate risk of the portfolio or part of the portfolio, is as per the formula given below:

$$\frac{\text{(Portfolio Modified Duration*Market Value of the Portfolio)}}{\text{(Futures Modified Duration* Futures price/PAR)}}$$

In case the IRF used for hedging the interest rate risk has different underlying security(s) than the existing position being hedged, it would result in imperfect hedging.

Imperfect hedging using IRFs may be considered to be exempted from the gross exposure, upto maximum of 20% of the net assets of the scheme, subject to the following:

a) Exposure to IRFs is created ***only for hedging*** the interest rate risk based on the weighted average modified duration of the bond portfolio or part of the portfolio.

b) The scheme is permitted to resort to imperfect hedging, without it being considered under the gross exposure limits, if and only if, the correlation between the portfolio or part of the portfolio *(excluding the hedged portions, if any)* and the IRF is atleast 0.9 at the time of initiation of hedge. In case of any subsequent deviation from the correlation criteria, the same may be rebalanced within 5 working days and if not rebalanced within the timeline, the derivative positions created for hedging shall be considered under the gross exposure computed in terms of 12.25of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 . The correlation should be calculated for a period of last 90 days.

Explanation: If the fund manager intends to do imperfect hedging upto 15% of the portfolio using IRFs on weighted average modified duration basis, either of the following conditions need to be complied with:

i. The correlation for past 90 days between the portfolio and the IRF is at least 0.9 or

ii. The correlation for past 90 days between the part of the portfolio (excluding the hedged portions, if any) i.e. at least 15% of the net asset of the scheme (including one or more securities) and the IRF is at least 0.9.

c) At no point of time, the net modified duration of part of the portfolio being hedged should be negative.

d) The portion of imperfect hedging in excess of 20% of the net assets of the scheme should be considered as creating exposure and shall be included in the computation of gross exposure in terms of 12.25 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 .

The basic characteristics of the scheme will not be affected by hedging the portfolio or part of the portfolio (including one or more securities) based on the weighted average modified duration.

The interest rate hedging of the portfolio will be in the interest of the investors.

E. What are the investment strategies?

The equity & debt exposure in the portfolio will be dynamically managed in the portfolio so as to minimize the risk and optimize returns for a long term investor. The extent of equity exposure will be dependent on the fund manager's outlook of the overall economic scenario in the country, global events, market conditions, valuation factors of the equity market in general such as Price to Earnings (PE), Price to Book Value (P/B), Earnings Yield etc. of the broader market, momentum factors, interest rate factors such as 10 year gilt yield, 1 year treasury bill yields etc. Within equity allocation the portfolio construction will be based on thematic approach to bottom up stock picking using the Business, Management and valuation (BMV) model. The Fund Manager will evaluate the business environment that a company operates in, the capability of the management to execute and scale up the business and valuation of the company based on fundamentals like discounted cash flows and PE ratios, etc.

Risk Control Measures:

- **Risk Control Measures for investment strategy:**

The fund will comply with the prescribed SEBI limits on exposure. Risk is monitored and necessary action would be taken on the portfolio if required.

- **Risk Mitigation measures for portfolio volatility:**

The fund will be adequately diversified across stocks & sectors and would also reduce exposure to equity for defensive considerations.

- **Risk mitigation measures for managing liquidity:**

Reasonable investments would be made in money market instruments for liquidity purposes.

Portfolio Turnover:

Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The scheme being an open ended scheme, it is expected that there would be frequent subscriptions and redemptions. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. Trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, change or anticipation of change in the credit worthiness or credit rating of securities or any other factors, which may lead to increase in the turnover. If trading is done frequently there may be an increase in transaction cost such as brokerage paid etc. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. The Scheme has no specific target relating to portfolio turnover.

Portfolio Turnover Ratio: 285.96

I. What are the investment restrictions?

As per the Trust Deed read with the SEBI (MF) Regulations, the following investment restrictions apply in respect of the Scheme at the time of making investments.

1. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the \Trustees and the Board of directors of the asset management company.

   Within the limits specified in clause 1 of the Seventh Schedule of MF Regulation, a mutual fund scheme shall not invest more than:

   a. 10% of its NAV in debt and money market securities rated AAA issued by a single issuer; or

b. 8% of its NAV in debt and money market securities rated AA issued by a single issuer; or
c. 6% of its NAV in debt and money market securities rated A and below issued by a single issuer.

The above investment limits may be extended by up to 2% of the NAV of the scheme with prior approval of the Trustees and Board of Directors of the AMC, subject to compliance with the overall 12% limit specified in clause 1 of the Seventh Schedule of MF Regulation.

The long term rating of issuers shall be considered for the money market instruments. However, if there is no long term rating available for the same issuer, then based on credit rating mapping of Credit Rating Agency (CRAs) between short term and long term ratings, the most conservative long term rating shall be taken for a given short term rating

Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills

Provided further that investments within such limit can be made in mortgaged backed securitised debt which are rated not below investment grade by a credit rating agency registered with the Board.

2. Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time.

3. The Mutual Fund under all its Scheme(s) shall not own more than 10% of any company's paid up capital carrying voting rights.

   Provided, investment in the asset management company or the trustee company of a mutual fund shall be governed by clause (a), of sub-regulation (1), of regulation 7B.

4. The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer which are rated not below investment grade by a credit rating agency authorised to carry out such activity under the Act. Such investment limit may be extended to 12% of the NAV of the scheme with the prior approval of the Board of Trustees and the Board of directors of the asset management company:

   Provided that such limit shall not be applicable for investments in Government Securities, treasury bills and triparty repo on Government securities or treasury bills

   Provided further that investment within such limit can be made in mortgaged backed securitized debt which are rated not below investment grade by a credit rating agency registered with the Board.

   Provided further that such limit shall not be applicable for investments in case of debt exchange traded funds or such other funds as may be specified by the Board from time to time

5. Debentures, irrespective of any residual maturity period (above or below one year), shall attract the investment restrictions as applicable for debt instruments. It is further clarified that the investment limits are applicable to all debt securities, which are issued by public bodies/institutions such as electricity boards, municipal corporations, state transport corporations etc. guaranteed by either state or central government. Government securities

issued by central/state government or on its behalf by the RBI are exempt from the above investment limits.

6. The investment of the Scheme in the following instruments shall not exceed 10% of the debt portfolio of the Scheme and the group exposure in such instruments shall not exceed 5% of the debt portfolio of the Scheme: -

   - Unsupported rating of debt instruments (i.e. without factoring-in credit enhancements) is below investment grade; and –
   - Supported rating of debt instruments (i.e. after factoring-in credit enhancement) is above investment grade

   The above limits shall not be applicable on investments in securitized debt instruments. Investment by the Scheme in debt instruments, having credit enhancements backed by equity shares directly or indirectly, shall have a minimum cover of 4 times considering the market value of such shares.

7. Further, the investment in debt instruments having credit enhancements should be sufficiently covered to address the market volatility and reduce the inefficiencies of invoking of the pledge or cover, whenever required, without impacting the interest of the investors. In case of fall in the value of the cover below the specified limit, AMCs will initiate necessary steps to ensure protection of the interest of the investors.The Scheme may invest in another scheme under the same AMC or any other mutual fund without charging any fees, provided that aggregate inter-scheme investment made by all schemes under the same AMC or in schemes under the management of any other asset management shall not exceed 5% of the net asset value of the Mutual Fund. However, the aforesaid provision will not apply to fund of funds scheme.

8. The Scheme shall not make any investments in:
   (a) any unlisted security of an associate or group company of the Sponsors; or
   (b) any security issued by way of private placement by an associate or group company of the Sponsors; or
   (c) the listed securities of group companies of the Sponsors which is in excess of 25% of the net assets.

9. The Scheme shall not invest in any Fund of Funds Scheme.

10. Transfer of investments from one scheme to another scheme in the same Mutual Fund, shall be allowed only if:-
   (a) such transfers are made at the prevailing market price for quoted Securities on spot basis (spot basis shall have the same meaning as specified by Stock Exchange for spot transactions.)
   (b) the securities so transferred shall be in conformity with the investment objective of the scheme to which such transfer has been made.
   (c)the same are in line with Para 12.30 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

11. The Mutual Fund shall buy and sell securities on the basis of deliveries and shall in all cases of purchases, take delivery of relevant securities and in all cases of sale, deliver the securities:
   - Provided that the Mutual Fund may engage in securities lending and borrowing in accordance with the framework relating to securities lending and borrowing specified by SEBI.

- Provided further that the Mutual Fund may enter into derivatives transactions in a recognized stock exchange, subject to the framework specified by SEBI.
- Provided further that sale of government security already contracted for purchase shall be permitted in accordance with the guidelines issued by the Reserve Bank of India in this regard.

12. No loans for any purpose may be advanced by the Mutual Fund and the Mutual Fund shall not borrow except to meet temporary liquidity needs of the Schemes for the purpose of payment of interest or IDCW to Unit Holders, provided that the Mutual Fund shall not borrow more than 20% of the net assets of each of the Schemes and the duration of such borrowing shall not exceed a period of six months.

13. The Mutual Fund shall enter into transactions relating to Government Securities only in dematerialised form.

14. The mutual fund shall get the securities purchased / transferred in the name of the fund on account of the concerned scheme, where investments are intended to be of long term nature.

15. Pending deployment of funds of a scheme in terms of investment objectives of the scheme, a mutual fund may invest them in short term deposits of schedule commercial banks, subject to the guidelines issued by Para 12.16 and Para 4.5 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, as may be amended from time to time.. The AMC shall not charge any investment management and advisory fees for parking of funds in such short term deposits of scheduled commercial banks for the scheme.

16. In accordance with Para 12.9 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 in case of debt schemes, the total exposure to single sector shall not exceed 20% of the net assets of the scheme. However this limit is not applicable for investments in Bank CDs, Triparty repo on Government securities or treasury bills, G-Secs, T-Bills short term deposits of scheduled commercial banks and AAA rated securities issued by Public Financial Institutions and Public Sector Banks.

    Provided that an additional exposure to financial services sector (over and above the limit of 20%) not exceeding 10% of the net assets of the scheme shall be allowed by way of increase in exposure to Housing Finance Companies (HFCs) only; Further, an additional exposure of 5% of the net assets of the scheme has been allowed for investments in securitized debt instruments based on retail housing loan portfolio and/or affordable housing loan portfolio.

    However, the overall exposure in HFCs shall not exceed the sector exposure limit of 20% of the net assets of the scheme.

    Provided further that the additional exposure to such securities issued by HFCs are rated AA and above and these HFCs are registered with National Housing Bank (NHB) and the total investment/ exposure in HFCs shall not exceed 20% of the net assets of the scheme

17. In accordance with para 12.9.3 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, in case of debt scheme the total exposure in a group, except and in the group of sponsor and the asset management company, (excluding investments in securities issued by Public Sector Units, Public Financial Institutions and Public Sector Banks) shall not exceed 20% of the net assets of the scheme. Such investment limit may be extended to 25% of the net assets of the scheme with the prior approval of the Board of Trustees.

Further, the investments in debt and money market instruments of group companies of both the sponsor and the asset management company shall not exceed 10% of the net assets of the scheme. Such investment limit may be extended to 15% of the net assets of the scheme with the prior approval of the Board of Trustees.

For this purpose, a group means a group as defined under regulation 2 (mm) of SEBI (Mutual Funds) Regulations, 1996 (Regulations) and amendment thereto.

18. In accordance with the guidelines as stated under para 12.1 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, investments in following instruments as specified in the said circular, as may be amended from time to time, shall be applicable:

    i. The scheme shall not invest in unlisted debt instruments including commercial papers (CPs), other than (a) government securities, (b) other money market instrument and (c) derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. which are used by mutual funds for hedging.

       However, the scheme may invest in unlisted Non-Convertible Debentures (NCDs) not exceeding 10% of the debt portfolio of the scheme subject to the condition that such unlisted NCDs have a simple structure (i.e. with fixed and uniform coupon, fixed maturity period, without any options, fully paid up upfront, without any credit enhancements or structured obligations) and are rated and secured with coupon payment frequency on monthly basis.

    ii. All fresh investments by mutual fund schemes in CPs would be made only in CPs which are listed or to be listed.

    iii. Further, investment in unrated debt and money market instruments, other than government securities, treasury bills, derivative products such as Interest Rate Swaps (IRS), Interest Rate Futures (IRF), etc. by mutual fund schemes shall be subject to the conditions as specified in the said circular:

        a. Investments should only be made in such instruments, including bills re-discounting, usance bills, etc., that are generally not rated and for which separate investment norms or limits are not provided in SEBI (Mutual Fund) Regulations, 1996 and various circulars issued thereunder.

        b. Exposure of mutual fund schemes in such instruments shall not exceed 5% of the net assets of the schemes.

        c. All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

19. Investments in Derivatives shall be in accordance with the Para 7.5, 7.6 and 12.25 of SEBI Master Circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 as may be amended from time to time

    All such investments shall be made with the prior approval of the Board of AMC and the Board of trustees.

20. Investment restrictions w.r.t. REITs and InvITS:

    a) The Mutual Fund under all its schemes shall not own more than 10% of units issued by a single issuer of REIT and InvIT.

b) The Scheme shall not invest more than 10% of its NAV in the units of REITs and InvITs.

c) The Scheme shall not invest more than 5% of its NAV in the units of REITs and InvITs issued by a single issuer.

The AMC may alter these above stated restrictions from time to time to the extent the SEBI (MF) Regulations change, so as to permit the Scheme to make its investments in the full spectrum of permitted investments for mutual funds to achieve its respective investment objective. The Trustee may from time to time alter these restrictions in conformity with the SEBI (MF) Regulations.

All investment restrictions shall be applicable at the time of making investment.

Apart from the above investment restrictions, the Fund follows certain internal norms vis-à-vis limiting exposure to scrips, sectors etc, within the above mentioned restrictions, and these are subject to review from time to time

Modifications, if any, in the Investment Restrictions on account of amendments to the Regulations shall supersede/override the provisions of the Trust Deed.

Participation of scheme in repo of corporate debt securities:

In accordance with Para 12.18 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, SEBI circular No. SEBI/HO/IMD/IMD PoD-2/P/CIR/2023/85 dated June 08, 2023 and SEBI circular No. SEBI/HO/IMD/IMD PoD-2/P/CIR/2023/87 dated June 13, 2023 and any other circulars issued by SEBI/ RBI from time to time, the Scheme shall participate in repo transactions on corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) in accordance with directions issued by RBI and SEBI from time to time. Currently the applicable guidelines are as under:

- The gross exposure of any mutual fund scheme to repo transactions in corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) shall not be more than 10 % of the net assets of the concerned scheme.
- The cumulative gross exposure through repo transactions in corporate debt securities including Commercial Papers (CPs) and Certificate of Deposits (CDs) along with equity, debt and derivatives, other permitted securities/assets and such other securities/assets as may be permitted by the Board from time to time shall not exceed 100% of the net assets of the concerned scheme.
- Mutual funds shall participate in repo transactions on following Corporate Debt securities;
    - listed AA and above rated corporate debt securities and
    - Commercial Papers(CPs) and Certificate of Deposits(CDs).
- In terms of Regulation 44 (2) mutual funds shall borrow through repo transactions only if the tenor of the transaction does not exceed a period of six months.
- Mutual funds shall ensure compliance with the Seventh Schedule of the Mutual Funds Regulations about restrictions on investments, wherever applicable, with respect to repo transactions in corporate debt securities including Commercial Papers(CPs) and Certificate of Deposits(CDs). However, for transactions where settlement is guaranteed by a Clearing Corporation, the exposure shall not be considered for the purpose of determination of investment limits for single issuer, group issuer and sector level limits.

<u>The parameters for investment in repos of corporate debt securities as approved by the Board of AMC and Trustee Company are as under:</u>

i) Category of counterparty to be considered for making investment:

All entities (including clearing corporations) eligible for transacting in corporate bond repos as defined by SEBI and RBI shall be considered for repo transactions.

(ii) Credit rating of counterparty to be considered for making investment
The schemes shall participate in corporate bond repo transactions with counterparties having a minimum investment grade rating and is approved by the Investment Committee on a case-to-case basis. In case there is no rating available, the Investment Committee will decide the rating of the counterparty, and report the same to the Board from time to time.
The requirement for credit rating of the counterparty will not be applicable for transactions where settlement is guaranteed by a Clearing Corporation,

(iii) Tenor of Repo and collateral
As a repo seller, the schemes will borrow cash for a period not exceeding 6 months or as per extant regulations. As a repo buyer, the Schemes are allowed to undertake the transactions for maximum maturity upto one year or such other terms as may be approved by the Investment Committee. There shall be no restriction / limitation on the tenor of collateral.

(iv) Applicable haircuts
RBI in its circular dated July 24, 2018 has prescribed the haircut to be applied for repo transactions as follows:

Haircut/margins will be decided either by the clearing house or may be bilaterally agreed upon, in terms of the documentation governing repo transactions, subject to the following stipulations:

i. Listed corporate bonds and debentures shall carry a minimum haircut of 2% of market value.
ii. CPs and CDs shall carry a minimum haircut of 1.5% of market value.
iii. Securities issued by a local authority shall carry a minimum haircut of 2% of market value.

However, the fund manager may ask for a higher haircut (while lending) or give a higher haircut (while borrowing) depending on the prevailing liquidity situation in the market.

Investments by the AMC in the Fund

Pursuant to SEBI (Mutual Funds) (Second Amendment) Regulation 2021, AMC shall invest in the scheme based on the risk associated with the scheme as specified in paragraph 6.9 of SEBI master circular SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 read with AMFI Best Practice Guidelines Circular 135/BP/100/2022-23 dated 26th April 2022 and any other circulars issued there under, from time to time. Based on the current risk associated the minimum percentage of AUM to be invested is 0.13% of the AUM. In addition to investments as mandated above, the AMC may invest in the Scheme subject to the SEBI (MF) Regulations. Under the Regulations, the AMC is not permitted to charge any investment management and advisory services fee on its own investment in the Scheme.

Creation of segregated portfolio
In accordance with para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, provisions have been included for creation of segregated portfolio in the scheme.

Explanations:

1. The term 'segregated portfolio' shall mean a portfolio, comprising of debt or money market instrument affected by a credit event, that has been segregated in a mutual fund scheme.

2. The term 'main portfolio' shall mean the scheme portfolio excluding the segregated portfolio.

3. The term 'total portfolio' shall mean the scheme portfolio including the securities affected by the credit event.

Note 1: As per para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the credit event is considered for creation of segregated portfolio, however as per para 4.4.3.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, the 'actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.

Note 2: Portfolio referred herewith will include interest accrued as well.

Terms and conditions in respect of Creation of segregated portfolio in the scheme:
AMC may create segregated portfolio in the scheme and it shall be subject to guidelines specified by SEBI from time to time including the following:

1. Segregated portfolio may be created, in case of a credit event at issuer level i.e. downgrade in credit rating by a SEBI registered Credit Rating Agency (CRA), as under:

   a. Downgrade of a debt or money market instrument to 'below investment grade', or

   b. Subsequent downgrades of the said instruments from 'below investment grade', or

   c. Similar such downgrades of a loan rating.

2. In case of difference in rating by multiple CRAs, AMC shall consider the most conservative rating. Creation of segregated portfolio shall be based on issuer level credit events as per above point no. 1 and shall be implemented at the ISIN level.

3. Creation of segregated portfolio shall be optional and at the discretion of Kotak Mahindra Asset Management Company Ltd ('AMC'). It should be created only if the Scheme Information Document (SID) of the scheme has provisions for segregated portfolio with adequate disclosures.

   Further, in accordance with para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, creation of segregated portfolio in mutual fund schemes has been permitted in respect of unrated debt or money market instruments by mutual fund schemes of an issuer that does not have any outstanding rated debt or money market instruments, subject to the following terms:

   a. Segregated portfolio of such unrated debt or money market instruments may be created only in case of actual default of either the interest or principal amount. As per para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, credit event is considered for creation of segregated portfolio, however as per para 4.4.3.3 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023, 'actual default' by the issuer of such instruments shall be considered for creation of segregated portfolio.

   b. AMCs shall inform AMFI immediately about the actual default by the issuer. Upon being informed about the default, AMFI shall immediately inform the same to all AMCs. Pursuant to dissemination of information by AMFI about actual default by the issuer, AMCs may segregate the portfolio of debt or money market instruments of the said issuer in terms of para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.

c. All other terms and conditions as stated in para 4.4 of SEBI Master circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023 shall remain the same.

For detailed process for creation of segregated portfolio, refer Statement of Additional Information (SAI) of the Mutual Fund.

J. How has the scheme performed?

Portfolio Turnover is a term used to measure the volume of trading that occurs in a Scheme's portfolio during a given time period. The scheme being an open ended scheme, it is expected that there would be frequent subscriptions and redemptions. Hence, it is difficult to estimate with any reasonable measure of accuracy, the likely turnover in the portfolio. Trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, change or anticipation of change in the credit worthiness or credit rating of securities or any other factors, which may lead to increase in the turnover. If trading is done frequently there may be an increase in transaction cost such as brokerage paid etc. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. The Scheme has no specific target relating to portfolio turnover.

Portfolio Turnover Ratio: 300.39

IV. UNITS AND OFFER

A. New Fund Offer (NFO)

This section does not apply to the scheme, as the ongoing offer of the Scheme has commenced after the NFO period, and the units are available for continuous subscription and redemption.

B. ONGOING OFFER DETAILS

Ongoing Offer Period	Scheme Reopened on August 10, 2018 The Units can be purchased and redeemed on all Business Days at Applicable NAV, subject to applicable load, if any.
Ongoing price for subscription purchase)/switch-in This is the price you need to pay for purchase/switch-in.	At the applicable NAV. The Methodology of calculating the Sale price for mutual fund units (Purchase price for investors) is given below: Sale price is the price at which investor can invest in units of mutual fund schemes. The entry load has been abolished with effect from August 01, 2009 vide para 10.4 of SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023.. Hence, Sale price is equal to the applicable NAV.
Ongoing price for redemption (sale) /switch outs (to other schemes/plans of the Mutual Fund) by investors. This is the price you will receive for redemptions/switch outs.	The redemption will be at Applicable NAV based prices, subject to applicable exit load; if any. As required under the Regulations, Fund shall ensure that the repurchase price of an open ended scheme is not lower than 95 per cent of the Net Asset Value. The Methodology of calculating the Repurchase price (Redemption price) of units is given below: Repurchase price is the price at which investor can redeem units of mutual fund schemes. While calculating repurchase price the exit load, as applicable, is deducted from the applicable NAV. For example, If the applicable NAV is Rs. 10, exit load is 1% then repurchase price will be: Rs. 10* (1-0.01) = Rs. 9.90.
Cut off timing for subscriptions/ redemptions/ switches This is the time before which your application (complete in all respects) should reach the official points of acceptance.	**Applicable NAV for Purchases/Switch-ins** 1. In respect of valid applications received upto 3.00 p.m. on a business day and entire amount is available in the mutual fund's account for utilization before the cut off time of the same day – closing NAV of the day of receipt of application; 2. In respect of valid applications received after 3.00 p.m. on a business day and the entire amount is available in the mutual fund's account for utilization before cut off time of the next business day – the closing NAV of the next business day; 3. Irrespective of the time of receipt of the application where the entire amount is available in Mutual fund's account for utilization before cut off time on any subsequent business day – the closing NAV of such subsequent business day. The above cut-off timings and applicability of NAV shall be applicable in

	respect of valid applications received at the Official Point(s) of Acceptance on a Business Day: 1. It is clarified that switches will be considered as redemption in the switch-out scheme and purchase / subscription in the switch-in scheme 2. Cheques received on a business day may be deposited with the primary bankers of the respective location on the next business day. NAV shall be as per the applicable NAV mentioned above. To enable early sighting of funds by the schemes, investors are requested to avail of electronic facilities like RTGS / NEFT in respect of subscriptions and submit the proof of transfer of funds along with their applications. AMC shall not be responsible for any delay on account of banking clearance or circumstances which are beyond the control of AMC. 3. The revised provisions for applicability of NAV based on realization of funds will be applicable to all types of investment including various systematic investments routes (viz, SIP, STP, Transfer of IDCW etc.) as may be offered by the Scheme from time to time. **Applicable NAV for Redemption/ Switch outs** a) where the application received upto 3.00 pm – closing NAV of the day of receipt of application; and b) an application received after 3.00 pm – closing NAV of the next business day. Further, where the AMC or the Registrar has provided a facility to the investors to redeem /switch-out of the Scheme through the medium of Internet by logging onto specific web-sites or any other facilities offered by the AMC and where investors have signed up for using these facilities, the Applicable NAVs will be as provided above. **Technical issues when transactions are processed through online facilities/ electronic modes.** The time of transaction done through various online facilities / electronic modes offered by the AMC, for the purpose of determining the applicability of NAV, would be the time when the request for purchase / SIP/ sale / switch of units is received in the servers of AMC/RTA. In case of transactions through online facilities / electronic modes, there may be a time lag of few seconds or upto 1-7 banking days between the amount of subscription being debited to investor's bank account and the subsequent credit into the respective Scheme's bank account. This lag may impact the applicability of NAV for transactions where NAV is to be applied, based on actual realization of funds by the Scheme. Under no circumstances will Kotak Asset Management Company Limited or its bankers or its service providers be liable for any lag / delay in realization of funds and consequent pricing of units. The AMC has the right to amend cut off timings subject to SEBI (MF) Regulations for the smooth and efficient functioning of the Scheme. Representation of SIP transaction which have failed due to technical reasons will also follow same rule.

Where can the applications for purchase/redemption switches be submitted?	Applications can be made either by way of a “Regular Application or Transaction slip” along with a cheque/DD or fund transfer instruction. The Fund may introduce other newer methods of application which will be notified as and when introduced. Investors should complete the Application Form and deliver it along with a cheque/draft (i.e. in case of “Regular Application”) or fund transfer instructions at any of the official points of acceptance of transactions listed below, First time investments can be made only by way of duly filled in application form. (1) At the Official points of acceptance of transactions as given on the back cover of this document. (2) For investments through switch transactions, transaction slip with application forms can be submitted at the AMC branches and CAMS Investor Service Centres & branches given in the last page. Further in line with Para 16.2.11 and 16.2.12 of SEBI circular No. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2023/74 dated May 19, 2023it has been decided to allow investors to directly access infrastructure of the recognised stock exchanges to purchase mutual fund units directly from Mutual Fund/ Asset Management Companies. SEBI circular has advised recognised stock exchanges, clearing corporations and depositories to make necessary amendment to their existing byelaws, rules and/or regulations, wherever required. Redemption/Switch requests: Where Units under a Scheme are held under both Direct Plan and Regular Plan, investors should clearly mention the plan from which redemption/switch requests are to be processed. If the investor does not mention the plan then the application may be rejected.

For pre funded instruments such as DD/Pay order it is the onus of the investor to provided adequate supporting documents to prove that such instruments are issued by debiting the first holders account. Kotak Mahindra Asset Management Co. Ltd. / Trustee retains the sole and absolute discretion to reject/ not process application and refund subscription money if the subscription does not comply with the specified provisions of Payment Instruments.
Listing	Since the Scheme is open-ended, it is not necessary to list the Units of the

	Schemes on any exchange. Liquidity is ensured to investors by the purchase and sale of Units from/to the Fund at prices related to the relevant Applicable NAV for the purpose of purchasing or redeeming Units from the Fund. The Trustee, however, has the right to list the Units under any of the Schemes on any stock exchange/s for better distribution and additional convenience to existing/prospective Unitholders. Even if the Units are listed, the Fund shall continue to offer purchase and redemption facility as specified in this scheme information document. Any listing will come only as an additional facility to investors who wish to use the services of a stock exchange for the purpose of transacting business in the Units of the Schemes.
Transaction Charges	Pursuant to Para 10.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, transaction charge per subscription of Rs. 10,000/- and above be allowed to be paid to the distributors of the Kotak Mahindra Mutual Fund products. The transaction charge shall be subject to the following: (a) For existing investors (across mutual funds), the distributor shall be paid Rs. 100/- as transaction charge per subscription of Rs. 10,000/- & above. (b) For first time investors, (across Mutual Funds), the distributor may be paid Rs. 150/- as transaction charge for subscription of Rs. 10,000/- & above. (c) The transaction charge shall be deducted by Kotak AMC from the subscription amount & paid to the distributor (will be subject to statutory levies, as applicable) & the balance amount shall be invested. (d) In case of Systematic Investment Plan(s), the transaction charge shall be applicable only if the total commitment through SIPs amounts to Rs.10,000/- & above. In such cases the transaction charge shall be recovered in first 4 successful installments. Identification of investors as "first time" or "existing" will be based on Permanent Account Number (PAN) at the First/ Sole Applicant/ Guardian level. Hence, Unit holders are urged to ensure that their PAN / KYC is updated with the Fund. Unit holders may approach any of the Official Points of Acceptances of the Fund i.e. Investor Service Centres (ISCs) of the Fund/ offices of our Registrar and Transfer Agent, M/s. Computer Age Management Services Ltd in this regard. The statement of accounts shall clearly state that the net investment as gross subscription less transaction charge and give the number of units allotted against the net investment. Transaction charges shall not be deducted/applicable for: Transaction other than purchases/subscriptions such as Switch/Systematic Transfer Plan (STP)/ Transfer of IDCW Plan ,etc.; Purchases/Subscriptions made directly with the Fund without any ARN code. Transactions carried out through the stock exchange platforms. Commission as specified in the aforesaid circular to distributors shall be paid by the investor directly to the distributor by a separate cheque based on his assessment of various factors including the service rendered by the

	distributor. Further , distributors shall now have the option to either opt in or opt out of charging transaction charge based on the type of product. ➢ **TRANSACTIONS THROUGH "CHANNEL DISTRIBUTORS** Investors may enter into an agreement with certain distributors/ Registered Investment Advisers (RIAs) (with whom AMC also has a tie up) referred to as "Channel Distributors" who provide the facility to investors to transact in units of mutual funds through various modes such as their website / other electronic means or through Power of Attorney in favour of the Channel Distributor, as the case may be. Under such arrangement, the Channel Distributors will aggregate the details of transactions (viz. subscriptions/redemptions/switches) of their various investors and forward the same electronically to the AMC / RTA for processing on daily basis as per the cut-off timings applicable to the relevant schemes. The Channel Distributor is required to send copy of investors' KYC Proof and agreement entered into between the investor & distributor/RIA to the RTA (one time for central record keeping) as also the transaction documents / proof of transaction authorization as the case may be, to the AMC / RTA as per agreed timelines. In case KYC Proof and other necessary documents are not furnished within the stipulated timeline, the transaction request, shall be liable to be rejected. Normally, the subscription proceeds, when invested through this mode, are by way of direct credits to the specified bank account of the Fund. The Redemption proceeds (subject to deduction of tax at source, if any) and payouts of IDCW, if any, are paid by the AMC to the investor directly through direct credit in the specified bank account of the investor or through issuance of payment instrument, as applicable. It may be noted that investors investing through this mode may also approach the AMC / Offical Point(s) of Acceptance directly with their transaction requests (financial / non-financial) or avail of the online transaction facilities offered by the AMC. The Mutual Fund, the AMC, the Trustee, along with their directors, employees and representatives shall not be liable for any errors, damages or losses arising out of or in connection with the transactions undertaken by investors / Channel Distributors through above mode. Pursuant to Para 15.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, Mutual funds/ AMC will adhere to the due diligence of distributors.
Special Products available	The Following facilities are available under the Scheme 1. Systematic Investment Plan 2. SIP Top Up Facility with Fixed Top Up option or Variable Top Up option 3. Flex - Systematic Investment Plan Facility (‘FSIP’) Facility 4. Systematic Withdrawal Plan 5. Systematic Transfer Plan 6. Transfer of Income Distribution cum capital withdrawal (IDCW) 7. Switching 8. Daily frequency under Systematic Transfer Plan Facility 9. Variable Transfer Plan (‘VTP’) 10. SIP Pause Facility

Systematic Investment Plan (SIP):

This facility enables investors to save and invest periodically over a longer period of time. It is a convenient way to "invest as you earn" and affords the investor an opportunity to enter the market regularly, thus averaging the acquisition cost of Units. Any Unitholder can avail of this facility subject to certain terms and conditions contained in the Application Form. The Fundamental Attributes and other terms and conditions regarding purchase/redemption, price and related matters are the same as contained in this SID.

The first SIP can be for any date of the month on which a NAV is declared in the scheme. In respect of the second and all subsequent SIPs, investors can select any one date among 1st to 31st as the SIP Date (in case the chosen fall on non-Business day the transaction will be effected on the next Business day of the scheme), and can also choose the SIP frequency as monthly or quarterly subject however, to the condition that there shall be a minimum gap of 28 days between the first and the second SIP. The aforesaid minimum gap shall be applicable only for SIPs registered via direct / auto debit. The minimum SIP installment amount is Rs. 10/. In case the SIP date is not selected for the aforesaid facility, 7th of every month/quarter will be treated as the default date.

The SIP request should be for a minimum of 6 months. The SIP payments can be made either by issue of Post Dated Cheques or by availing the Auto Debit Facility through ECS (available in select locations only) or by availing the Direct Debit Facility / Standing Instructions Facility (Unitholders may check with their bankers for availability of this facility).) However, the first investment in SIP through the Auto Debit Facility or Direct Debit Facility needs to be made compulsorily by issuance of a cheque from the account from which the Auto Debit / Direct Debit is requested. Investors can also submit SIP applications along with cancelled cheque leaf of the account from where the investor intends to commence the SIP.

If the first SIP investment is through a demand draft or pay order or the initial investment cheque is drawn from a bank account, other than the bank account mentioned in the SIP mandate, the investor has to ensure that the bank details and signatures are attested by the banker of the bank from where the SIP is initiated. Alternatively the investors should provide a copy of the cancelled cheque leaf of the bank account from where the investor intends to do the SIP.

The load structure applicable for each installment will be as per the load structure applicable at the time of registration of SIP. Changes in load structure effected by the AMC after that date may not be applicable unless stated specifically.

SIP Top Up Facility:

Description: SIP Top-Up facility with Fixed Top Up option or Variable Top Up option will be available to the investors, wherein the amount of SIP can be increased at fixed intervals

The Trustee/AMC reserves the right to change/modify the provisions mentioned facility at a later date. **Top-Up Cap amount or Top-Up Cap month-year** I. Top-Up Cap amount: In this facility the investor has an option to freeze the SIP Top-Up amount once it reaches a fixed predefined amount. The fixed pre-defined amount should be same as the maximum amount mentioned by the investor in the bank mandate/ existing registered One-Time Mandate (OTM). In case of difference between the Cap amount & the maximum amount mentioned in Bank mandate, then amount which is lower of the two amounts shall be considered as the default amount of SIP Cap amount. II. Top-Up Cap month-year: The facility for SIP Top-Up amount will cease and last SIP instalment including Top-Up amount will remain constant from Cap date till the end of SIP tenure. Basic Terms and conditions are as follows: •The date from which Investors have opted the SIP Top-Up amount will cease and last SIP instalment including Top-Up amount will remain constant from Cap date till the end of SIP tenure. •Investor shall have flexibility to choose either Top-Up Cap amount or Top-

Up Cap month- year. In case of multiple selection, Top-Up Cap amount will be considered as default selection.
•Top-Up Cap is applicable for Fixed Top Up option as well as Variable Top Up option.
•All the investors of the fund availing the facility under SIP Variable Top - Up feature are hereby requested to select either Top - Up Cap amount or Top - Up Cap month - year.
•In case of no selection, the SIP Variable Top-Up amount will be capped at a default amount of Rs. 10 Lakhs. Under the said facility, SIP amount will remain constant from Top - Up Cap date/ amount till the end of SIP Tenure.

<u>Flex - Systematic Investment Plan Facility (‘FSIP’) Facility</u>

1. **FSIP -** is a facility wherein an investor can opt to invest variable amount in the scheme based on P/E (price-to-earnings ratio) level of Nifty. This facility allows investors to take advantage of market movements by investing higher amounts when the markets are low, and by investing a variable amount (within the limits defined by the investor) when the markets are higher.

	2. If an investor wants to opt for the said facility then Individual Enrolment Form is required filled for each FSIP transaction. 3. Details for FSIP: 4. Available under the Monthly and Quarterly Options 5. The minimum amount and tenure of FSIP would be as applicable to normal SIP facility in the scheme. 6. Dates available for transfer are as applicable for regular SIP of Schemes. 7. Investors at the time of registration will have an option to specify the amount to be invested at PE level of <=15. This amount will have to be higher than the installment amount invested at PE level of >15. In case the investor does not specify the amount for PE level of <=15, then the default amount (3 times the specified amount for PE band >15) shall be applicable. 8. There is no maximum duration for FSIP enrollment. Calculation of FSIP : The FSIP will be based on the trailing Price to Equity ratio (P/E) of Nifty 50 Index. The amount to be transferred on each FSIP date will be determined on the basis of the P/E band. 1. If the P/E ratio is greater than 15, then the specified amount gets invested 2. If the P/E ratio is lesser than or equal to 15, then - 3. The amount in the application form specified by the investor for PE level<=15. 4. Or if no such amount is specified then the default amount which is 3 times the FSIP amount gets invested 5. The installment value of FSIP would be determined based on PE of Nifty 50 on T-10th day. If T-10th day is a non-business day, then valuation will be done on the previous business day i.e. T-11th day. **<u>The process has been explained below through an illustration for FSIP using the default option.</u>** **Assumptions:**

1. In case of FSIP, if four consecutive installments fail, then FSIP will be ceased.

2. The first FSIP installment will be processed as per the standard installment amount specified by the unit holder at the time of enrolment and not based on PE value of Nifty 50.

3. Once the FSIP has been stopped, the unit holder needs to provide a new request to start FSIP.

4. In respect of FSIP enrollments made in any of the existing open ended Scheme(s), the Load Structure prevalent at the time of

	enrollment shall be applicable to the investors during the tenure of the FSIP. 5. FSIP Facility will not be available if the Folio / Certificate is under Lien or marked "FROZEN" on the advice of I.T. authorities /regulatory authorities / Court or any other reason. 6. All requests for registering or deactivating the FSIP shall be subject to an advance notice of 28 (Twenty Eight) business days. Investors can deactivate the facility by sending a written request to the Investor Service Centers. **Systematic Withdrawal Plan:** This facility enables the Unitholders to withdraw (subject to deduction of tax at source, if any) sums from their investments in Scheme at periodic intervals through a one-time request. The withdrawals can be made either Monthly (on 1st, 7th, 14th, 21st or 25th of every month) or Quarterly (on 1st, 7th, 14th, 21st or 25th, as the case may be. In case any of these days fall on non-business day the transaction will be effected on the next business day of the scheme. SWP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of SWP. In case the SWP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the SWP registration request received for a period lesser than 7 days in the interest of unit holders. Example: for Monthly SWP if the SWP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this SWP will be from 7th February onwards. This facility is available in two options to the Unitholders: **Fixed Option:** Under this option, the Unitholder can seek redemption of a fixed amount of not less than Rs. 1000 from his Unit account. In this option the withdrawals will commence from the Start Date (being one of the dates indicated above) mentioned by the Unitholder in the Application Form for the facility. The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. If the net asset value of the units outstanding on the withdrawal date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last SWP installment then the entire amount will be processed along the last SWP installment. **Appreciation Option:** Under this option, the Unitholder can seek redemption of an amount equal to a periodic appreciation on the investment. The Unitholder redeems only such number of Units, which when multiplied by the Applicable NAV is, in amount terms equal to the appreciation in his investment over the last month / quarter. The investor would need to indicate in his systematic withdrawal request, the commencement / start date from which the appreciation in investment value should be computed. The withdrawal will commence after one month/quarter

	(as requested by the investor) from the commencement / start date mentioned by the Unitholder in the Application Form and can, at the investor's discretion be on 1st , 7th , 14th, 21st or 25th of the month / quarter. The Units will be redeemed at the Applicable NAV of the respective dates on which such withdrawals are sought. In case the investor purchases additional Units, the withdrawal amount would include the appreciation generated on such Units as well. In the absence of any appreciation, the redemption under this option will not be made. For both fixed and appreciation option, the provision of minimum redemption amount / units will not be applicable for redemption made under this facility. **<u>Systematic Transfer Plan (STP)</u>** This facility enables the Unitholders to switch an amount from their existing investments in a Scheme/Plan/Option to another Scheme/Plan/Option of the Fund, which is available for investment at that time, at periodic intervals through a one-time request. The switch can be made weekly, monthly or quarterly. Under this facility the switch by the Unitholders should be within the same account/ folio number. The transfers can be made either Daily or Weekly or Monthly (onany business day) or Quarterly (on any business day). The amount so switched shall be reinvested in the other scheme / plan and accordingly, to be effective, the systematic transfer must comply with the redemption rules of transferor scheme and the issue rules of transferee scheme (e.g. exit / entry load etc) STP registration needs to be submitted to the Registrar/ AMC 7 days prior to the date of commencement of STP. In case the STP commencement date is less than 7 days from the date of submission of registration form and the date opted for, then the same would be registered for the next cycle. The AMC reserves the right to process the STP registration request received for a period lesser than 7 days in the interest of unit holders. Example: for Monthly STP if the STP date opted is 7th of every month from 7th January and submitted on 3rd January then the registration of this STP will be from 7th February onwards. This facility offers two options to the Unitholders: **Fixed Option:** Under this option, the Unitholder can switch fixed amount of not less than Rs. 1000/- from his Unit account. In this option the switch will commence from the Start Date mentioned by the Unitholder in the application form for the facility. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be created at the Applicable NAV of such Scheme/Plan/Option on the respective dates. If the net asset value of the units outstanding on the transfer date is insufficient to process the withdrawal request, then the entire outstanding units will be processed. And if the available balance falls below Rs 1000 after processing of the last STP installment, then the entire amount will be processed along the last STP installment.

	Appreciation Option: Under this option, the Unitholder can seek switch of an amount equal to the periodic appreciation on the investment. Under this option the Unit holder switches only proportionate number of Units, which when multiplied by the applicable NAV is, in amount terms equal to the appreciation in the investment over the last month/quarter. For both Fixed and appreciation option the provision of minimum redemption and minimum investment amount / units will not be applicable for transfer / switch transactions made under this facility for both switch out and switch in schemes. The investor has to mention a "Start Date". The first switch will happen after one month/quarter from the start date. In case the investor purchases additional Units, the amount to be switched would be equal to the appreciation generated on such Units. In the absence of any appreciation as mentioned above, the switch under this option will not be made. The Units in the Scheme/Plan/Option from which the switch - out is sought will be redeemed at the Applicable NAV of the Scheme/Plan/Option on the respective dates on which such switches are sought and the new Units in the Scheme/Plan/Option to which the switch - in is sought will be allotted at the Applicable NAV of such Scheme/Plan/Option on the respective dates. **Transfer of Income Distribution cum capital withdrawal (IDCW) Plan :** Transfer of IDCW Plan is a facility whereby the unit holders under the IDCW Options (other than Daily Reinvestment Sub-option) of the open ended Schemes of KMMF can opt to transfer their IDCW to any other Investment option (other than Daily Reinvestment Sub-option) under any other open ended schemes of KMMF. Transfer of IDCW plan facility will be available to unit holder(s) holding units in non-demat form under the IDCW Option of the Transferor Schemes. Under the Transfer of IDCW plan facility investors cannot transfer their IDCW into certain category of transferee schemes viz, close ended Schemes, Exchange Traded Funds (ETFs), and Kotak Tax Saver Scheme. Under Transfer of IDCW Plan, IDCW as & when declared (as reduced by the amount of applicable statutory levy) in the transferor scheme (subject to minimum of Rs.500/-) will be automatically invested without any exit load into the transferee scheme, as opted by the Unit holder. Such transfer will be treated as fresh subscription in the transferee scheme and invested at the Applicable NAV of the Transferee Scheme. If the IDCW amount in the Transferor Scheme is less than Rs.500/- the IDCW will be automatically reinvested in the Transferor Scheme itself and hence will not be transferred. The provision for 'Minimum Application Amount' specified in the respective transferee scheme's SID will not be applicable under Transfer of IDCW plan. Enrolment under the Transfer of IDCW plan facility will automatically override any previous instructions for ' Payout of IDCW' or ' Reinvestment of IDCW' option in the transferor scheme. No Exit Load will be levied on units allotted in the Transferee Scheme under the Transfer of IDCW Plan Unit holders who wish to enroll for the Transfer of IDCW plan facility are

	required to fill DTP Enrollment Form available with the ISC's, distributors/ agents and also available on the website www.kotakmf.com The request for enrolment or cancellation for Transfer of IDCW plan must be submitted at least 7 days prior to the Record Date for the IDCW. In case of the condition not being met, the enrolment would be considered valid from the immediately succeeding Record Date of the IDCW, provided the difference between the date of receipt of a valid application for enrolment under Transfer of IDCW plan and the next Record Date for the IDCW is not less than 7 days. The AMC / Trustee reserve the right to change/ modify the terms and conditions of the Transfer of IDCW Plan on a prospective basis. **Switching** Unitholders of the Scheme have the option of switching out all or part of their investment in the Scheme/ Plan/ Option to any other Option of the Scheme or to any other Scheme / Plan/ Option of the Fund. A switch has the effect of redemption from a Scheme/Plan/ Option and a purchase in the other Scheme/Plan/Option to which the switching has been done and all the terms and conditions pertaining to redemption and purchase of the Units of the respective Scheme shall apply to a switch, unless otherwise specified. Switch is affected by redeeming Units from the Scheme/ Plan/Option and investing the net proceeds in the other Scheme/Plan/Option. All other terms & conditions of existing SIP will remain the same. **Daily frequency under Systematic Transfer Plan Facility:** Daily frequency ("Daily STP") has been introduced in addition to existing frequencies available under "Fixed Option" of Systematic Transfer Plan facility. Terms and conditions of Daily STP are as follows: Applicability: 1. Daily STP is only available under Fixed amount Option (Fixed STP) and will not be applicable under Capital appreciation STP (Variable STP). 2. An investor can select this facility whereby the investor chooses to transfer on a periodic basis a pre-determined amount from any "Source Scheme" into any "Target Scheme". 3. In case the Investor fails to mention the frequency for the STP option in the form, then the default option will be considered as monthly frequency. 4. The STP will be processed subject to the terms of the Target scheme. 5. This frequency will be available under all the "eligible schemes" of Kotak Mahindra Mutual Fund.

	Eligible Schemes	Source Scheme	All Open Ended Schemes of Kotak Mahindra Mutual Fund except Exchange Traded Funds. In case of Kotak Tax Saver Scheme, Daily STP will be available for free units only.
		Target Scheme	All Open Ended Schemes of Kotak Mahindra Mutual Fund except Exchange Traded Funds.

Transfer of Funds:

1. Minimum Instalment amount to be transferred through this facility should be at least Rs. 6,000 per year or that which matches the minimum investment amount of the said schemes whichever is higher for the said year.
2. Minimum amount to transfer under Daily STP: Minimum 12 transfers of Rs. 500/- each and in multiples of Rs. 100/- thereafter.
3. Default amount: If investor fails to mention the STP Amount then the default value should be taken as Rs. 500 (minimum transfer amount).

Schemes available for Daily STP:

1. It shall be the responsibility of the investor to ensure that sufficient balance (free from any Lock-in or encumbrances) is available in the Source Scheme account on the date of transfer, failing which the transfer will not be processed to the extent of available balance in the source scheme's account.
2. If the plan/option of the Source scheme is not mentioned and there is only one plan/option available in the folio, the STP will be processed from that plan/option.
3. If investor carries investments under multiple schemes / plans / options and does not mention the Source Scheme along with plans and options, then such request will be rejected.
4. In case plan and option in Target Scheme for STP are not selected by the investor, then the default option/ plan for the Target scheme shall be considered as per SID.

Other Terms and Conditions:

1. Investor need to clearly mention the "Transfer Period from" and "Transfer Period To" in the STP request Form. In case, the investor fails to specify the "Transfer Period from" the STP will start from the 7th day from the date of receipt of valid registration form.
2. In case, the investor fails to specify the "Transfer Period To" under Daily STP, STP shall continue to be triggered perpetually until further valid instructions from the investor or until the outstanding balance in "Source scheme" does not cover the Daily STP transfer amount.
3. If the available balance falls below the minimum amount of the specified triggered value, the available balance in the Source scheme will get triggered and future STP will be ceased.
4. STP registration from the existing investment (in the Source Scheme) will start from the 7th day from the date of receipt of valid registration form. If the STP form is received along with fresh investment, then the STP will start from the 7th day from the date of

	realisation of the investment amount with the valid registration form. 5. In case the specified date is a non-business day for either the Source Scheme or the Target Scheme, the STP will be processed on the following business day for both the schemes. When the value of STP is more than Rs. 2 lakhs or the Target scheme is a liquid fund then the allotment in the Target scheme will be processed based on the utilisation/ realisation of funds from Source scheme (for more details refer NAV applicability clause for respective Target scheme). 6. In case the STP commencement date is less than 7 days from the date of submission of registration form, the same will commence from the 7th day from the date of receipt of valid registration form. The AMC reserves the right to process the STP registration request received for a period lesser than 7 days in the interest of unit holders. 7. An investor can discontinue his STP facility by giving 7 days prior notice in writing to the Registrars (CAMS) office or at any other point of service. **Variable Transfer Plan:** It is a facility wherein an investor under a source scheme can opt to transfer variable amounts linked to the value of his investments on the date of transfer at pre-determined intervals from source scheme to the growth option of target scheme. It would be suitable for investors who are looking to invest higher when the NAVs are lower and a fixed amount when the NAVs are higher and take the benefit of rupee cost averaging. **Terms and conditions of VTP are as follows:** 1. An individual VTP Enrolment Form should be filled for each Scheme / Plan / Option. 2. VTP will be available in the following specified schemes: Source Schemes: All Open Ended Schemes of Kotak Mahindra Mutual Fund except Exchange Traded Funds and Kotak Tax Saver. In case of Kotak Tax Saver Scheme, VTP will be available for free units only. Target Schemes: All open ended equity schemes, open ended hybrid schemes and open ended fund of fund schemes excluding exchange traded funds and Kotak Tax Saver. 3. Calculation of VTP: The amount to be transferred under Variable Transfer Plan from source scheme to target scheme shall be calculated using the below formula -

	Variable Transfer Plan amount shall be higher of the following: a. Fixed amount specified at the time of enrolment b. [fixed amount to be transferred per installment x number of installments already executed, including the current installment] - market value of the investments through Variable Transfer Plan in the Target Scheme on the date of transfer **Illustration:** The process has been explained below through an illustration for calculation of VTP as on the date of 3rd Installment, with the help of the abovementioned formula:

Fixed amount specified at the time of enrolment (A)	Rs.6000
or	
As determined by the formula (B)	(6000*3) – 11495 =Rs.6505
Whichever is higher. Hence, Rs.6505 is taken as investment amount.

Note: The above example does not contain any TDS / STT deduction. VTP determined will be net of applicable taxes.

4. The minimum amount and tenure of VTP would be as applicable to normal STP (Specified Transaction Period) facility in respective schemes. Frequency of the VTP is mentioned as below:

Particulars	**VTP Transaction Dates**	**Minimum no. of installments and Minimum amount per instalment**
Daily	Every Business Day	6 installments of Rs. 1000/- each and in multiples of Re.0.01/- thereafter
Weekly	Any day of the Week (except Saturday & Sunday)	6 installments of Rs. 1000/- each and in multiples of Re.0.01/- thereafter
Monthly	Any Date	6 installments of Rs. 1000/- each and in multiples of Re.0.01/- thereafter
Quarterly	Any Date	6 installments of Rs.1000/- each and in multiples of Re.0.01/- thereafter

5. In case of valid VTP enrolment forms received, indicating choice of option other than the growth option in the Target Scheme, it will be deemed as the growth option in the Target Scheme and processed accordingly.

6. In case the VTP commencement date is less than 10 calendar days from the date of submission of registration form, the same will commence from the 11th day from the date of receipt of valid registration form. The AMC reserves the right to process the VTP registration request received for a period lesser than 10 calendar days in the interest of unit holders.

7. There is no maximum duration for VTP enrollment.

8. The first VTP installment will be processed for the fixed installment amount specified by the investor at the time of enrolment. From the second installment onwards, the transfer amount shall be computed as per formula stated above.

9. If there is any other financial transaction (Purchase, redemption or switch or Systematic Investment Plan) processed in the target scheme during the tenure of VTP, the VTP will be processed as normal STP for the rest of the installments for a fixed amount, also there will not be any change in number of installments.

10. In case of VTP, if four consecutive installments fail, then VTP will be ceased. In case the amount to be invested is not available, the transaction will be rejected. After 4 consecutive rejects, this facility will be cancelled.

	11. The VTP will be processed subject to the terms, applicable loads (if any), of the Target scheme and Source Scheme. 12. An investor can select this facility whereby the investor chooses to transfer on a periodic basis a variable amount from any “Source Scheme” into any “Target Scheme”. 13. Once the VTP has been stopped, the unit holder needs to provide a new request to start VTP again. 14. All other terms & conditions of Systematic Transfer Plan are also applicable to VTP. **SIP Pause Facility** SIP Pause facility gives option to pause the SIP for a period ranging from 1 month up to 6 months in a respective scheme. Basic Terms and conditions are as follows: • The applicant will have the right to pause SIP which is directly registered with KMMF. • An investor who wishes to request for SIP Pause facility shall duly fill the SIP Pause Form and submit the same at the office of the Customer Service Centres of KMMF or CAMS Service Centre. • A valid form for SIP Pause facility will be processed within 15 days from the date of receipt of the same. • SIP Pause facility would allow existing investor to ‘Pause’ their SIP for a specified period of time i.e. Minimum 1 month and Maximum 6 months. • There would be no restriction on the number of times a SIP can be paused. • SIP Pause facility shall be available where ‘SIP Facility’ is available in the Schemes of KMMF. • SIP Pause Facility is applicable only for AMC initiated debit instructions i.e. ECS/NACH/Direct Debit, etc. • SIP Pause Facility is not possible for investors having Standing Instructions with banks. • The SIP shall continue from the subsequent instalment after the completion of pause period automatically. • If the SIP pause period is coinciding with the SIP Top Up facility, the SIP instalment amount post completion of pause period would be inclusive of SIP Top Up amount. For e.g. SIP instalment amount prior to pause period is ` 5,000/- and SIP Top Up amount is `1,000/- . If the pause period is completed after date of SIP Top Up, then the SIP instalment amount post completion of pause period shall be ` 6,000/-. • Incomplete SIP Pause Form in any respect would be liable to be rejected. • The investor hereby agrees to indemnify and not hold responsible, the AMC and its employees, the R&T agent and the service providers in case his/her bank is not able to effect any of the payment instructions for whatsoever reason.
Accounts Statements	Pursuant to Para 14.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023 , the investor whose transaction has been accepted by Kotak Mahindra Asset Management Company Ltd. / Kotak Mahindra Mutual Fund shall receive the following: 1. The AMC shall send an allotment confirmation specifying the units

	allotted by way of email and/or SMS within 5 Business Days of receipt of valid application/transaction to the Unit holders registered e-mail address and/ or mobile number (whether units are held in demat mode or in account statement form). 2. The holding(s) of the beneficiary account holder for units held in demat mode will be shown in the statement issued by respective Depository Participants (DPs) periodically. 3. A consolidated account statement (CAS) for each calendar month on or before 15th of the succeeding month shall be sent by email (wherever investor has provided email id) or physical account statement where investor has not provided email id., across the schemes of the mutual funds, to all the investors in whose folio(s) transaction(s) has/have taken place during the month. The same shall be sent by the AMC or by the Agencies appointed by the AMC for non demat unit holders. 4. For the purpose of sending CAS, common investors across mutual funds shall be identified by their Permanent Account Number (PAN). 5. The CAS will not be received by the investors for the folio(s) not updated with PAN details. The Unit holders are therefore requested to ensure that the folio(s) are updated with their PAN and email id. Such investors will get monthly account statement from Kotak Mahindra Mutual Fund in respect of transactions carried out in the schemes of Kotak Mahindra Mutual Fund during the month. 6. Pursuant to SEBI Circular no. CIR /MRD /DP /31/2014 dated November 12, 2014 requiring Depositories to generate and dispatch a single consolidated account statement for investors having mutual fund investments and holding demat accounts, the following modifications are made to the existing guidelines on issuance of CAS. ▪ Such Investors shall receive a single Consolidated Account Statement (CAS) from the Depository. ▪ Consolidation shall be done on the basis of Permanent Account Number (PAN). In case of multiple holding, it shall be PAN of the first holder and pattern of holding. ▪ In case an investor has multiple accounts across two depositories, the depository with whom the Demat account has been opened earlier will be the default depository which will consolidate the details across depositories and MF investments and dispatch the CAS to the investor. ▪ The CAS will be generated on monthly basis. ▪ If there is any transaction in any of the Demat accounts of the investor or in any of his mutual fund folios, depositories shall send the CAS within fifteen days from the month end. In case, there is no transaction in any of the mutual fund folios and demat accounts, then CAS with holding details shall be sent to the investor on half yearly basis. ▪ The dispatch of CAS by the depositories shall constitute compliance by Kotak AMC/ Kotak Mahindra Mutual Fund with the requirements

	under Regulation 36(4) of SEBI (Mutual Funds) Regulations, 1996 ▪ Further, a consolidated account statement shall be sent by Depositories every half yearly (September/March), on or before 21st day of succeeding month, providing the following information: - holding at the end of the six month - The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards, trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and Services tax (wherever applicable, as per existing rates), operating expenses, etc. The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested in 7. Such half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. 8. In case of a specific request is received from the investors, Kotak Mahindra Asset Management Company Ltd./ Kotak Mahindra Mutual Fund will provide the physical account statement to the investors. 9. For Unitholders who have provided an e-mail address in KYC records, the CAS will be sent by e-mail. 10. Any discrepancy in the Account Statement should be brought to the notice of the Fund/AMC immediately. Contents of the Account Statement will be deemed to be correct if no error is reported within 30 days from the date of Account Statement. **Half Yearly Account Statement:** • Asset management company will send consolidated account statement every half yearly (September/ March), on or before twenty first day of succeeding month, detailing holding at the end of the six month, across all schemes of all mutual funds, to all such investors in whose folios no transaction has taken place during that period. The Account Statement shall reflect the latest closing balance and value of the Units prior to the date of generation of the account statement. • The Account Statement shall reflect - holding at the end of the six month - The amount of actual commission paid by AMCs/Mutual Funds (MFs) to distributors (in absolute terms) during the half-year period against the concerned investor's total investments in each MF scheme. The term 'commission' here refers to all direct monetary payments and other payments made in the form of gifts / rewards,

	trips, event sponsorships etc. by AMCs/MFs to distributors. Further, a mention may be made in such CAS indicating that the commission disclosed is gross commission and does not exclude costs incurred by distributors such as Goods and Services tax (wherever applicable, as per existing rates), operating expenses, etc. • The scheme's average Total Expense Ratio (in percentage terms) along with the break up between Investment and Advisory fees, Commission paid to the distributor and Other expenses for the period for each scheme's applicable plan (regular or direct or both) where the concerned investor has actually invested inSuch half-yearly CAS shall be issued to all MF investors, excluding those investors who do not have any holdings in MF schemes and where no commission against their investment has been paid to distributors, during the concerned half-year period. • The account statements in such cases may be generated and issued along with the Portfolio Statement or Annual Report of the Scheme. • Alternately, soft copy of the account statements shall be mailed to the investors' e-mail address, instead of physical statement, if so mandated. "Transaction" shall include purchase, redemption, switch, Payout of Income Distribution cum capital withdrawal option (IDCW), Reinvestment of Income Distribution cum capital withdrawal option (IDCW),systematic investment plan, systematic withdrawal plan, systematic transfer plan and bonus transactions.
Income Distribution cum capital withdrawal (IDCW) Policy	**Growth Option:** Under the Growth option, there will be no distribution of income and the return to investors will be only by way of capital gains, if any, through redemption at applicable NAV of Units held by them. **IDCW Option** Under the IDCW option, the Trustee may at any time decide to distribute by way of IDCW, the surplus by way of realised profit and interest, net of losses, expenses and taxes, if any, to Unitholders if, in the opinion of the Trustee, such surplus is available and adequate for distribution. The Trustee's decision with regard to such availability and adequacy of surplus, rate, timing and frequency of distribution shall be final. The Trustee may or may not distribute surplus, even if available, by way of IDCW. The IDCW will be paid to only those Unitholders whose names appear on the register of Unitholders of the Scheme / Option at the close of the business hours on the record date, which will be announced in advance. The Fund is required to dispatch IDCW payments within seven working days from the record date. In case the AMC fails to dispatch the IDCW payments within the stipulated time of seven working days, it shall be liable to pay interest to the unit holders at 15% p.a. or such other rate as may be prescribed by SEBI from time to time. The IDCW Option will be available under two sub-options " the Payout Option and the Reinvestment Option. *Payout of IDCW Option:* Unitholders will have the option to receive payout

			end. ** Name mismatch typically occurs where the bank account is held jointly, but the 1st holder in MF Folio may not be first holder in the bank account or the investor's name in MF folio and his/her bank account may not be exactly identical e.g., MF folio is held by A+B, but the bank account is in the name of B +A; OR the name as per bank a/c & MF folio are recorded a bit differently e.g.,* *(i) Given Name + Middle Name + Surname* *(ii) Given Name + Surname* *(iii) Surname + Given Name etc.* *Note: When payment is made through cheque / DD, the investor's bank account details registered with the RTA shall be printed on the cheque/DD, so that the amount is paid only through the investor's bank account to mitigate the risk of fraudulent encashment.*	
		(ii)	Redemption in case of funds where payout schedule of underlying instruments/ funds is different e.g., Domestic Fund of Funds, Overseas funds, Overseas FOF scheme, wherein the redemption proceeds can be paid after 1 day of payout schedule	Additional 1 working day after receiving proceeds from underlying instruments/ schemes for electronic payouts. {For physical payouts, i.e., issuance and dispatch of cheque/ DD, additional days as per (i) above would also be allowed, after receiving proceeds from underlying instruments/ schemes}. For example, in case of Domestic FoFs, where funds are received on T+3 days, timeline applicable would be – a) T+4 days for Electronic payment; and

		b) T+6 days physical payout.
(iii)	On such days, where it is a bank holiday in some or all the states, but a business day for the stock exchanges.	Additional 1 working day following the bank holiday(s) in the State where the investor has bank account.
(iv)	Exceptional circumstances such as a sudden declaration of a business day as a holiday or as a non- business day due to any unexpected reason / Force Majeure events.	In all such exceptional situations, the timelines prescribed in Para 14.1 and 14.2 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023shall be counted from the date the situation becomes normal.
(v)	In all such cases where a request for Change of Bank account has been received just prior to (upto 10 days prior) OR simultaneously with redemption request.	In all such cases, the AMCs / RTAs can make the redemption payment after the cooling off period of 10 days from the date of receipt of COBM. The redemption transaction shall be processed as per the applicable NAV on the basis time stamp. The credit may either be given in the existing bank account or the new bank account post due diligence within 1 working day after cooling off period.
(vi)	Need for additional due diligence in instances such as Transmission reported in one fund, but not in the current fund, proceedings by Income Tax authorities, Folio under lock/bank lien etc.	Additional 3 working days

Redemption proceeds will be paid by cheques, marked "Account Payee only" and drawn in the name of the sole holder/first-named holder (as determine by the records of the Registrar). The Bank Name and No., as specified in the Registrar's records, will be mentioned in the cheque, which will be payable at the city of the bank branch of the Unitholder. If the Unitholder resides in any other city, he will be paid by a Demand Draft payable at the city of his bank branch.

Redemption cheques will generally be sent to the Unit holder’s address, (or, if there is more than one joint holder, the address of the first-named holder) as per the Registrar's records, by courier.

Redemption proceeds may also be paid to the Unitholder in any other manner

	viz., through ECS, Direct Credit, IMPS, NEFT in to Bank account, RTGS facility, any other mode allowed by Reserve Bank of India or through Banker's cheque, etc, as the AMC may decide, from time to time for the smooth and efficient functioning of the Schemes.
Redemption by NRIs/FPIs	Credit balances in the account of a NRIs/FPIs unit holder may be redeemed by such unit holder subject to any procedures laid down by the RBI. Payment to NRI/FPI unit holder will be subject to the relevant laws/guidelines of RBI as are applicable from time to time (subject to deduction of tax at source as applicable). The Fund will not be liable for any delays or for any loss on account of exchange fluctuations while converting the rupee amount in US Dollar or any other currency. Note: The mutual fund will rely on the NRI status and his account details as recorded in the depository system. Any changes to the same can be made only through the depository system.
Delay in payment of redemption / repurchase/IDCW proceeds	The Asset Management Company shall be liable to pay interest to the unitholders at such rate as may be specified by SEBI for the period of such delay (presently @ 15% per annum).
Unclaimed Redemption/IDCW Amount	In accordance Para 14.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, the unclaimed Redemption amount and IDCW amount that are currently allowed to be deployed by the Mutual Fund only in call money market or money market Instruments, shall also be allowed to be invested in a separate plan of only Overnight scheme / Liquid scheme / Money Market Mutual Fund scheme floated by Mutual Funds specifically for deployment of the unclaimed amounts. Provided that such schemes where the unclaimed redemption and IDCW amounts are deployed shall be only those Liquid scheme / Money Market Mutual Fund schemes which are placed in A-1 cell (Relatively Low Interest Rate Risk and Relatively Low Credit Risk) of Potential Risk Class matrix as per paragraph 17.5 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023. AMCs shall not be permitted to charge any exit load in this plan and TER (Total Expense Ratio) of such plan shall be capped as per the TER of direct plan of such scheme or at 50bps whichever is lower. Investors who claim these amounts during a period of three years from the due date shall be paid initial unclaimed amount along with the income earned on its deployment. Investors who claim these amounts after 3 years, shall be paid initial unclaimed amount along with the income earned on its deployment till the end of the third year. After the third year, the income earned on such unclaimed amounts shall be used for the purpose of investor education. AMC shall play a proactive role in tracing the rightful owner of the unclaimed amounts considering the steps suggested by regulator vide the referred circular.
Bank A/c Details	As per the directives issued by SEBI it is mandatory for an investor to declare his/her bank account number. To safeguard the interest of Unitholders from loss or theft of their refund orders/redemption cheques, investors are requested to provide their bank details in the Application Form. In case an existing Unitholder is submitting a request for Change in his Bank

	Details, he needs to submit a copy of cancelled cheque leaf of the new bank account or Bank statement of the new bank account attested by his banker with seal & signature of banker or letter from the Banker of the investor. In absence of the same, the request for Change in Bank Mandate is liable to be rejected. Investors have an option of registering their bank accounts, by submitting the necessary forms & documents. At the time of redemption, investors can select the bank account to receive the amount.
The policy regarding reissue of repurchased units, including the maximum extent, the manner of reissue, the entity (the scheme or the AMC) involved in the same.	Not Applicable
Restrictions, if any, on the right to freely retain or dispose of units being offered.	The Asset Management Company shall, on production of instrument of transfer together with relevant documents, register the transfer within 30 days from the date of such production. The Units of the Scheme held in the dematerialised form will be fully and freely transferable in accordance with the provisions of SEBI (Depositories and Participants) Regulations, 1996 as may be amended from time to time and as stated in Para 14.4.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023. Also, when a person becomes a holder of the units by operation of law or upon enforcement of pledge, then the AMC shall, subject to production/submission of such satisfactory evidence, which in its opinion is sufficient, effect the transfer, if the intended transferee is otherwise eligible to hold the units.

D. Computation of NAV

The NAV of the Units of the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation date.

The Fund shall value its investments according to the valuation norms (Valuation Policy includes computation of NAV in case of investment in foreign securities), as specified in the Eighth Schedule of the Regulations, or such guidelines / recommendations as may be specified by SEBI from time to time. The broad valuation norms are detailed in the Statement of Additional Information.

NAV of Units under the Scheme will be calculated as shown below:

$$\text{NAV} = \frac{\text{Market or Fair Value of Scheme's investments} + \text{Current assets including Accrued Income} - \text{Current Liabilities and provisions including accrued expenses}}{\text{No. of Units outstanding under the Scheme/Option.}}$$

NAV for the Scheme of the Units will be calculated and announced at the close of each Business Day. The NAV shall be computed upto three decimals. The NAV of Direct Plan will be different than the NAV of Regular Plan.

Computation of NAV will be done after taking into account IDCWs declared, if any, and the distribution tax thereon, if applicable. Therefore, once IDCW are distributed under the IDCW Option, the NAV of the Units under the IDCW Option would always remain lower than the NAV of the Units issued under the Growth Option. The income earned and the profits realized in respect of the Units remain invested and are reflected in the NAV of the Units.

V. FEES AND EXPENSES

This section outlines the expenses that will be charged to the scheme.

A. New Fund Offer (NFO) expenses

This is an ongoing scheme on the date of updating this document.

B. Annual Scheme Recurring Expenses

Total Expense Ratio is the total of ongoing fees and operating expenses charged to the scheme, expressed as a percentage of the scheme's daily net assets.

These fees and expenses include Investment Management and Advisory Fee charged by the AMC, Registrar and Transfer Agents' fee, brokerage/commission, marketing and selling costs etc.

As per Regulation 52(6)(c) of SEBI (MF) Regulations, the total expense ratio of the scheme excluding issue or redemption expenses, whether initially borne by the mutual fund or by the asset management company, but including the investment management and advisory fee shall be subject to the following limits:-

Assets under management Slab (In Rs. crore)	Total expense ratio limits
on the first Rs.500 crores of the daily net assets	2.25%
on the next Rs.250 crores of the daily net assets	2.00%
on the next Rs.1,250 crores of the daily net assets	1.75%
on the next Rs.3,000 crores of the daily net assets	1.60%
on the next Rs.5,000 crores of the daily net assets	1.50%
on the next Rs.40,000 crores of the daily net assets	Total expense ratio reduction of 0.05% for every increase of Rs. 5,000 crores of daily net assets or part thereof.
on balance of the assets	1.05%

<u>Total Expense Ratio for the scheme</u>

The AMC has estimated following recurring expenses, as summarized in the below table for the scheme. Total expense ratio of the Scheme (including investment and advisory fees) will be subject to the maximum limits (as a percentage of Daily Net Assets of the Scheme) as per Regulation 52(6) & (6A), as amended from time to time, with no sub-limit on investment and advisory fees

Additional expenses under regulation 52 (6A) (c) #	Upto 0.05%
Additional expenses for gross new inflows from specified cities	Upto 0.30%

The AMC shall not charge additional expenses under Regulation 52(6A)(c) in case exit load is not levied/ not applicable

With reference to SEBI's letter no. SEBI/HO/ IMD/ IMD-SEC-3/ P/ OW/ 2023/ 5823/ 1 dated February 24, 2023, and AMFI Circular No. CIR/ ARN-23/ 2022-23 March 07, 2023, the B-30 incentive structure for new inflows has been kept in abeyance with effect from March 01, 2023 till the incentive structure is appropriately re-instated by SEBI with necessary safeguards.

Expense Structure for Direct Plan - The annual recurring expenses will be within the limits specified under the SEBI (Mutual Funds) Regulations, 1996.

In terms of the Para 10.1 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, all fees and expenses charged in a direct plan (in percentage terms) under various heads including the investment and advisory fee shall not exceed the fees and expenses charged under such heads in a regular plan.

However, Direct Plan shall have a lower expense ratio than the Regular Plan. The expenses would exclude distribution expenses, commission, etc and no commission for distribution of Units will be paid / charged under Direct Plan.

Additional expenses which may be charged to the Scheme:

The following additional expenses may be charged to the Scheme under Regulation 52 (6A), namely-

- Brokerage and transaction cost incurred for the purpose of execution shall be charged to the scheme as provided under Regulation 52 (6A) (a) upto 12 bps and 5 bps for cash market transactions and derivatives transactions respectively. Any payment towards brokerage & transaction costs, over and above the said 12 bps and 5 bps for cash market transactions and derivatives transactions respectively may be charged to the Scheme within the maximum limit of Total Expense Ratio (TER) as prescribed under Regulation 52 of the SEBI (Mutual Finds) Regulations, 1996.
- Expenses not exceeding of 0.30 % of daily net assets, if the new inflows from beyond top 30 cities are at least:
  (i) 30 % of gross new inflows in the scheme; or
  (ii) 15 % of the average assets under management (year to date) of the scheme; whichever is higher.

  Provided that if inflows from such cities is less than the higher of sub-clause (i) or sub- clause (ii), such expenses on daily net assets of the scheme shall be charged on proportionate basis.

  Provided further that expenses charged under this clause shall be utilised for distribution expenses incurred for bringing inflows from such cities.

Provided further that amount incurred as expense on account of inflows from such cities shall be credited back to the scheme in case the said inflows are redeemed within a period of one year from the date of investment.

Provided further that the additional TER can be charged based on inflows only from 'retail investors' (Para 10.1.3 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, has defined that inflows of amount uptoRs 2,00,000/- per transaction, by individual investors shall be considered as inflows from "retail investor") from beyond top 30 cities.

Provided that the additional commission for beyond top 30 cities shall be paid as trail only.

In case inflows from beyond top 30 cities is less than the higher of (i) or (ii) above, additional TER on daily net assets of the scheme shall be charged as follows:

Daily net assets X 30 basis points X New inflows from individual investors from beyond top 30 cities
----
365* X Higher of (i) or (ii) above

* 366, wherever applicable.

- Additional expenses upto 0.05% of daily net assets of the schemes, incurred towards different heads mentioned under Regulation 52 (2) and 52 (4).

Clause 4 of Seventh Schedule to SEBI (Mutual Funds) Regulations, 1996 which restricts investments in mutual fund units upto 5% of net assets and prohibits charging of fees, shall not be applicable to investments in mutual funds in foreign countries made in accordance with guidelines as per SEBI circular no. SEBI/IMD/CIR No.7/104753/07 dated September 20, 2007. However, the management fees and other expenses charged by the mutual fund(s) in foreign countries along with the management fee and recurring expenses charged to the domestic mutual fund scheme shall not exceed the total limits on expenses as prescribed under Regulation 52(6). Where the scheme is investing only a part of the net assets in the overseas mutual fund(s), the same principle shall be applicable for that part of investment.

<u>Goods and Services Tax:</u>
Goods and Services Tax on investment and advisory fees may be charged to the scheme in addition to the maximum limit of TER as prescribed in Regulation 52(6)(c). Goods and Services tax on other than investment and advisory fees, if any, shall be borne by the scheme within the maximum limit of TER as per Regulation 52.

The aforesaid estimates are made in good faith by the Investment Manager and are subject to change inter se among the various heads of expenses and between the Plans. It may also be noted that the total expenses of the Plans will also be subject to change within the overall limits of expenses under Regulation 52. Actual expenses under any head and / or the total expenses may be more or less than the estimates. The Investment Manager retains the right to charge the actual expenses to the Fund, however the expenses charged will not exceed the statutory limit prescribed by the Regulations. There will be no sub limit on management fee, and it shall be within the overall TER specified above.

The fund shall update the current expense ratios on the website (kotakmf.com) at least three working days prior to the effective date of the change. The web link for TER is https://www.kotakmf.com/Information/investor-service

For the actual current expenses being charged, the investor may refer to the website of the mutual fund.

Illustration of impact of expense ratio on scheme's returns:

(In Rupees)

Particulars	**Regular Plan**	**Direct Plan**
Amount Invested at the beginning of the year	10,000	10,000
Annual Returns before Expenses	800	800
Expenses other than Distribution Expenses	75	75
Distribution Expenses / Commission	25	-
Returns after Expenses at the end of the Year	**700**	**725**

Illustration is given to understand the impact of expense ratio on a scheme return and this should not be construed as an indicative return of the scheme. The expenses of the Direct Plan under the Scheme will be lower to the extent of distribution expenses/ commission.

C. Load structure

Load is an amount which is paid by the investor to subscribe to the units or to redeem the units from the scheme. This amount is used by the AMC to pay commissions to the distributor and to take care of other marketing and selling expenses. Load amounts are variable and are subject to change from time to time. For the current applicable structure, please refer to the website of kotakmf.com or may call at 1800-309-1490 or your distributor.

Entry Load: NIL
In terms of Para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023,, no entry load will be charged on purchase / additional purchase / switch-in. The commissionas specified in aforesaid circular, if any, on investment made by the investor shall be paid by the investor directly to the Distributor, based on his assessment of various factors including the service rendered by the Distributor.

Exit load:

- For redemption/switch out of upto 8% of the initial investment amount (limit) purchased or switched in within 1 year from the date of allotment: Nil.
- If units redeemed or switched out are in excess of the limit within 1 year from the date of allotment: 1%.
- If units are redeemed or switched out on or after 1 year from the date of allotment: Nil.

  Any exit load charged (net off Goods and Services Tax, if any) shall be credited back to the Scheme.

*Units issued on reinvestment of IDCWs shall not be subject to entry and exit load.*For any change in load structure AMC will issue an addendum and display it on the website/Investor Service Centres.

Any imposition or enhancement of Load in future shall be applicable on prospective investments only. In case of changes in load structure the addendum carrying the latest applicable load structure shall be attached to all KIM and SID already in stock till it is updated.

Investors may obtain information on loads on any Business Day by calling the office of the AMC or any of the Investor Service Centers. Information on applicability of loads will also be provided in the Account Statement.

The investor is requested to check the prevailing load structure of the scheme before investing.

D. WAIVER OF LOAD FOR DIRECT APPLICATIONS

Pursuant to Para 10.4 of SEBI Master Circular no. SEBI/HO/IMD/IMD-PoD1/P/CIR/2023/74 dated May 19, 2023, no entry load shall be charged for all mutual fund schemes.

Therefore, the procedure for waiver of load for direct applications is no longer applicable.
